**Accountants' Index** American Institute of Certified Public Accountants, 1924      Accounting Methodology and the Work of R. J. Chambers (RLE Accounting) Michael Gaffikin, 2014-02-05 This study traces the development of methodology in philosophy and economics with particular focus on the work of Raymond Chambers. As well as analysing the reception on methodological lines afforded his work by both academic and professional communities, the volume discusses some significant contributions by French and German scholars to the debate about why scientific communities have accepted some theories and rejected others.      *Journal of Accountancy*, 1925      Management Audit Approach in Writing Business History (RLE Accounting) Allen Bures, 2013-12-04 This study adds both knowledge and method in the writing of business history. The author proposes that a preliminary management audit can be devised and utilized to gather data, analyse and compare longitudinally the quality of management existing in organizations. This book modifies a methodological tool for measuring, analysing and comparing managements to aid in the writing of business history. It establishes criteria and examples of excellent management from a sample of the USA's first large-scale organization, the railroads. Prior to the 1870s, the railroads were the only big business in the USA and the early ones emerged as a managerial problem which made obsolescent traditional structures and concepts and required effective management.
