Sentencing and the Legitimacy of Trial Justice Ralph Henham, 2013-03-01 This book discusses the under researched relationship between sentencing and the

legitimacy of punishment It argues that there is an increasing gap between what is perceived as legitimate punishment and the sentencing decisions of the criminal courts Drawing on a wide variety of empirical research evidence the book explores how sentencing could be developed within a more socially inclusive framework for the delivery of trial justice In the international context such developments are directly relevant to the future role of the International Criminal Court especially its ability to deliver more coherent and inclusive trial outcomes that contribute to social reconstruction Similarly in the national context these issues have a vital role to play in helping to re position trial justice as a credible cornerstone of criminal justice governance where social diversity persists In so doing the book should help policy makers in appreciating the likely implications for criminal trials of mainstreaming restorative forms of justice Sentencing and the Legitimacy of Trial Justice firmly ties the issue of legitimacy to the relevant context for delivering justice It suggests a need to develop the tools and methods for achieving this and offers some novel solutions to this complex problem This book will be a valuable resource for graduate students academics practitioners and policy makers in the field of criminal justice as well as scholars interested in socio legal and cross disciplinary approaches to the analysis of criminal process and sentencing and the development of theory and comparative methodology in this area

which different states studied each other and their institutions and the ways in which different reformers exchanged ideas and investigated policing and penal experiments in other countries It also explores the theoretical issues underpinning recent research emphasising that the changes in ideas on crime and criminals were neither linear nor circular and demonstrating clearly that many ideas hailed as new by contemporary politicians and in current debate on crime and its solutions have a very long and illustrious history
