DEMYSTIFY Rajan Dubey, 2019-07-01 A phenomenal journey of unveiling the Scientificity of Homoeopathy that has been mysteriously masked since time immemorial This book unfolds the latest astonishing evidence based discovery as to how foreign exogenous proteins are capable of disrupting the homeostasis of our body and predisposing it to chronic diseases or chronicity Dr Hahnemann has strongly asserted that Treat the person as one whole and not his individual parts which holds true because when a person falls ill it is the interior that gets disturbed first This disturbance not only disseminates to the functional unit of the body i.e. the cells but also pervades the proteins which form a major constituent of our body Dr Rajan Dubey renowned for his scientific and evidence based writing has described the intricate process by which protein disturbance occurs and chronicity commences in our body He also accentuates the role of external influences like emotions diet and environment in governing our DNA and genes whereby exciting and maintaining the disease process To substantiate the scientificity of the Theory of Chronic Diseases proposed by Dr Samuel Hahnemann and also to facilitate its easy and practical utility even in today's era we took up a retrospective study of a random sample of 30 patients from a pool of around 10 000 patients visiting MEDIGENE HOMEOCARE our clinical institute located in Mumbai The purpose of the study was to trace down the precursor leading to chronicity in each patient Amongst these 10 cases are explained in complete detail to serve as a practical guide to the readers An insight into the remedies holding close proximity to the case and the differentiation between them has been imparted as well

True Perception of Chronic Diseases Rajan Dubey, 2016-04-08 We belong to an era of non communicable diseases such as cancer hypertension diabetes mellitus stroke obesity cardiovascular disorders etc About two decades ago the advent of these so called lifestyle disorders were seen only in a handful of population But as time passes we witness more and more people suffering from such problems From a homoeopathic standpoint we view this situation to be alarming This is because all the above mentioned diseases indicate a latent chronic process undergoing within the human body which have a potential to undermine every possibility of an individual to lead a healthy life The purpose of our book is to demonstrate the efficacy of homoeopathy as probably the only curative and scientific healing science which can free people from the crutches of chronic disease in a very simple and non invasive manner AUDE SAPERE DARE TO BE WISE
