Managing Organizational Complexities With Digital Enablement In China: A Casebook Shan-ling Pan, 2015-03-11

Managing Organizational Complexities with Digital Enablement in China aims to provide insights into the use of information technologies in organizations and government agencies in China. Edited by Shan Ling Pan with contributions from academics across the world, this casebook contains 17 case studies which document experiences of utilizing enterprise systems and e government initiatives in organizations and government agencies from China. These case studies feature companies such as Alibaba, Haier, COFCO, JD.com, and Tencent among many others. These in-depth well-written case materials will be helpful to students and readers with an interest in China studies and other related fields. They will also be useful to organizations and government agencies that plan to implement enterprise systems and e government initiatives in the years ahead.

Leadership for a Digital World Annika Steiber, 2022-05-07 The pace of change today is unprecedented. As more than one observer has said, change itself has changed. Technologies and markets in virtually every industry are now subject to rapid and unpredictable change, placing a premium on the ability to successfully manage new paradoxes such as being entrepreneurial and efficient as well as able to sense shifts and rapidly respond and secure enough stability for quality and efficiency. In short, enterprise leaders face a paradigm shift in management and they will be forced to transform their organizations in order to survive in the 21st century. This book will provide leaders with the fundamental principles for managing a firm in the digital economy as well as the Rendanheyi business model developed for the new century. Finally, the book will provide leaders with a case based on GE Appliances on how they can effectively transform their own organizations. Foreword by Edgar Schein and Peter Schein. *Trust Management in the Chinese E-Commerce Market* Yong Pan, 2024-06-06 Based on the classic adverse selection model, this book sets up the cyber lemons market model and analyzes the basic rule of asymmetric information. This book focuses on the topics as following: Is there lemons in e-commerce market? What rule do the cyber lemons characterize? How to build the cyber lemon market model? What is the particularity of adverse selection in cyber markets? What is more, how to eliminate or avoid the cyber lemons in Chinese e-commerce market? This book aims to provide the accumulation for e-commerce research and support decision making for management in Chinese e-commerce markets and suggests trust management solutions to eliminate or decrease the cyber lemons. Through this book, it helps readers understand the ideas and effective methods of trust management in the Chinese e-commerce market while deepening the reverse selection model and theory.

Global Business Model Shift Umberto Lago, 2024-08-24 This book takes the readers on a profound exploration of global business transformation through the lens of the RenDanHeYi (RDHY) business model. It discusses the complexities of implementing RDHY beyond China and navigating cultural, regulatory, and organizational intricacies. It helps uncover the pragmatic and outcome-oriented nature of RDHY with a focus on aligning core values for sustainable success. Using a multidimensional analysis, the author reveals hidden layers of values, philosophies, and
