environmental destruction Virtually everyone values some aspect of the natural world Yet many people are surprisingly unconcerned about environmental issues treating them as the province of special interest groups Seeking to understand how our appreciation for the beauty of nature and our indifference to its destruction can coexist in us Shierry Weber Nicholsen explores dimensions of our emotional experience with the natural world that are so deep and painful that they often remain unspoken The Love of Nature and the End of the World is a gathering of meditations and collages Its evocations of our emotional attachment to the natural world and the emotional impact of environmental deterioration are meant to encourage individual and collective reflection on a difficult dilemma Nicholsen draws on work in environmental philosophy and ecopsychology the writings of psychoanalytic thinkers such as Wilfred Bion Donald Meltzer and D W Winnicott and ideas from Buddhist and Sufi traditions She shows how our emotional responses to the vulnerabilities of the natural world range from intense caring and compassion through grief and outrage to diffuse depression Individual chapters focus on silence and the process whereby we move from the unspoken to the spoken the love of nature the perceptual reciprocity with the natural world to which we might mature beauty in the human and natural realms the psychological impact of the destruction of the natural world and reflections on the future

*Love in the Time of the Apocalypse* Gregory Blecha, 2005-02-17 Though a dystopian novel hovering over the imminent collapse of American civilization at the hands of a techno authoritarian state *Love in the Time of the Apocalypse* is also a book about the triumph of love and humor over the fatal gravitas of life and death It is part future nightmare part whimsical farce of the present *Love in the Time of the Apocalypse* is a work of playful conspiratorial pop delirium and pastiche full of lovable terrorists state run breeding houses Amish casinos vulgar action scenes the antichrist tongue and cheek hyper masculinity perhaps sit ups can save the world and a bourgeois love story to top it all Readers who love Science Fiction Dystopian Literature and Conspiracy Theory will find this book chock full of fresh and clever fare The speculative details are much more subtle than works on the post apocalypse The reader can feel both drawn into a bit of a future shock while at the same time remain anchored in a familiar albeit terrifying present Blecha has a way of pulling from current trends of government suppression of freedoms and stretching them ever so softly to their possible conclusion Thus rather than a world of utter totalitarianism such as Orwell's 1984 we are presented with a more plausible more friendly fascism that a society founded on consumerism and entertainment might bring about Without coming across as a writer with an agenda Gregory Blecha offers a strong but playful critique of State power the smothering inefficiency and corruption of bureaucracy and the role of the over stimulated under critical herd of middle class consumers and middle managers of a collapsing North America Tramps plague victims nihilists and nymphomaniacs along with the main character a WASP drawn into their exciting world make for the heroes of the story The villains are the lifeless and systematic processes of the Federal Government the Department of Health the Department of Overpopulation and the technological control systems of modern life and yet even these are rendered with an air of playfulness that allows the reader to smile as

our particular world and the dawning of something new the world of tomorrow De Martino seeks in part to make the idea of the end of a world less horrifying while at the same time attending to the individual loss of self that one might feel in contemplating an apocalypse especially as modernization has divorced us from the rituals and folklore that might make such an eventuality less terrifying De Martino writes Two opposed terrors dominate our age the terror of losing the world and the terror of being lost in the world The end of the world the loss of presence Interweaving the cultural and individual levels of apocalypse treating subjects both classic and contemporary and both European and non Western ranging across ethnography and philosophy De Martino probes how we relate to our world and how we might be better subjects and thinkers within it

Dickinson proposes a critique of religious belief which addresses how a secular world can continue to mine religious traditions for their conceptual and emotional riches. *Atheism and Love in the Modern Era* argues that theism and atheism taken together can peel back the layers of abstraction, alienation and disillusionment that always accompany our humanity in order to help us really see how it is to exist in this world. To illuminate this vision, Dickinson takes up the notion of love as a cultivation and practice of indifference as a letting go of one's identity, a crucial concept that unites both religion and atheism through a concerted effort to detach from them both. The book is organized into four sections, each situating the concept of love in relation to a distinct theme: the first outlines modern secularized versions of various religious concepts such as technology in the place of miracles or art in the place of religious revelation; the second argues that in a pluralistic world the actual lived realities of various religious communities and persons defy the static categories and classifications grouped under the umbrella of religion; the third section discusses and defines non-absolute love; the fourth section discusses how atheism in its critiques of religion misses the significance of de-centring the act of love. Dickinson elaborates his reflections through lucid engagement with a variety of thinkers including Immanuel Kant, Giorgio Agamben, Jacques Derrida, Erich Fromm, Charles Taylor and Philip Kitcher. This is essential reading for those interested in popular debates around theism and atheism as well as those concerned with the ways in which continental and analytic philosophy have addressed the continued significance of religious traditions.

*Love in the Time of Fridge* Tim Scott, 2008-07-29 Tim Scott's *Outrageous Fortune* marked the debut of one of the most wildly inventive writers to hit the sci-fi scene in years. Now he returns with a hilarious yet poignant novel of love, loss and itinerant appliances. New Seattle Health and Safety: Do not die for no reason. This is the motto of a city so obsessed with the danger of sharp corners that it has almost forgotten how to live. But Huckleberry Lindbergh is about to find his trip to the city most decidedly unsafe. For a chance encounter leads him into the heart of a dark conspiracy. And in order to stop it, this former cop is about to do something so unsafe, so monumentally stupid that its reverberations will be felt all the way to the Pentagon. Soon he is on the run from more authorities than he has had hot meals; his staunchest allies, a bunch of feral fridges that give new meaning to the words 'chill out'. But sometimes a dose of chaos is just what the doctor ordered, and Huck's quest to remain among the living teaches not only him but those around him the true meaning of survival in all its forms.

*Love, Poetry, and Immortality: Luminous Insights of the World's Great Thinkers* William Gerber, 2022-07-11 This book explores and illustrates the individuating characteristics and the interrelationships of love, poetry and literary immortality, such immortality that is as writers may win in the sense of being long remembered and appreciated by future readers. From the book's numerous quotations of glittering literary passages, it is evident that love is often expressed in poetry and that many authors, especially those writing about love, have expressed the winsome hope that their works would be greatly cherished by later generations. Part One of the book illustrates, by passages of matchless poetry, the joys and perils of love and other outstanding features of love. Part Two outlines the history of expressions by writers in many cultures of their

confidence or hope that their works will make them immortal      Love at the Five and Dime Brian T. They describe parallel evolutions within the two cultures and how innovatively these independent civilisations developed their own categories and myths to explain, exalt but also control the emotions of love and their behavioural expressions. The analyses contain rich materials for comparison, point out the universal and specific elements in each culture and hint at differences and resemblances without ignoring the peculiar beauty and attractive force of the texts cultivating love.
