*Love Is Stronger Than Death* Donald E. MacKay, 2010 This book of short stories is called fiction which is often considered the result of a person's unbridled imagination gone berserk But it is much more than that fictional stories allow one to freely examine that which is not accepted as a truth or not considered a real possibility without the fear of reprisal from society's convention The maxim offered by the great philosopher of Samos suggests that one seek his own truth and not that of another To actively seek truth for one's self will give an accepted truth from effort and not merely acceptance How can one seek his own truth This book is founded on many stories that are pure fiction although a few contain a bit of truth Two of them however are exactly true without a shred of fiction or imagination attached Read this book and find them It is a demonstration called seeking truth Consider the principle theme called metempsychosis offered in many stories contained in this book Millions of thinkers deny it a possibility A few thinkers offer the notion from ignorance that one returns from death as some kind of animal however once human always human Pythagoras only claimed to have returned as human If you acted like an animal in human form then you would return as an animal in human form All cultures and religions once accepted transmigration as fact which was and is held as truth by billions of thinkers Do not allow another to think for you Great numbers of believers in any direction cannot offer an absolute truth one only need look to fanatical mob mentality to see this is a fact Perhaps this book will stimulate your thinking

a clearly identifiable linear chronological line of evolution but it does evolve in a subtle way from one phase of his career to the next The book explores how Larkin discovered his own original inimitable idiosyncratic poetic voice by truly democratising English poetry for the first time by writing accessible and pleasurable poetry and by forging a new poetic out of a philistine aesthetic which stands out as an artistic holotype It shows how Larkin restores the relation between poetry and the reading public a relation which was broken down by Modernist poets It also establishes how his poetic vision is neither optimistic nor pessimistic but realistic in that it preserves the universal human condition without moralising or philosophising The book aims to make a fresh departure in Larkin criticism and mark a new era in Larkin studies This volume will be of interest to students and researchers of Modernism twentieth century literature poetry language and literature

*Love Works* Ned Wisniefski, 2025-05-20 Is it God's will that the world be destroyed That is no longer a believable idea This book starts from the assumption that God has nothing to do with the destruction of the world To account for these facts rather we must look at the deep darkness depicted in the Bible that threatens to return the world to a formless void With that assumption this book proposes a biblical theology that shows how faith and hope can align with our scientific and ethical understandings and how such a thoughtful faith will be active in love So understood the love of God looks less like the love a parent has for a child than the challenging risky love a leader has for disciples whose word to them is follow me In this way we see that love works love is active and love succeeds in defeating the corruption and violence that threaten to destroy our world That's the gospel truth
