Allen,2015-07-09 Excerpt from Manual Training for Common Schools An Organized Course in Wood Working In preparing this book on Manual Training the author has attempted to be thorough rather than complete No attempt has been made to add anything new to the subject matter but only to arrange well known facts so that they will offer as systematic and complete a course of study as is offered in any of the older organized courses The arrangement of the text as herein presented is the direct result of five years teaching the subject of wood working to beginning classes This class work was preceded by a number of years of shop work as a journeyman machinist and a factory foreman as well as by a four years college course in science and engineering Help in preparing the text has been gleaned from so many fields that it would be impossible to make direct mention of all who have given valuable assistance The author wishes however to acknowledge the
