Changing Teaching, Changing Teachers Keith Wood,Saratha Sithamparam,2020-11-23 A unique feature of this book is its focus on engaging teachers themselves in changing teaching as a way to bring about teacher change through lesson study and learning study The sequence changing teaching changing teachers is significant This approach to professional development is not about telling teachers what and how they should teach to bring about change in their students learning outcomes It is about empowering teachers to make their own decisions about what needs to change Empowering teachers in this way has been identified as the soul of Japanese lesson study Cheng 2019 It is the soul which can so easily be compromised when lesson study is adopted and inevitably it seems adapted in new contexts around the globe Without teacher empowerment top down curriculum development is almost bound to fail In presenting the cases of collaborative professional development included in this book care has been taken to include the teachers voices They are
