American Free Enterprise System- Ch 3

1. Explain the importance of the following in terms of the free enterprise system: (12 points)

- **Profit motive:** force that encourages people to improve their material well-being, drives the free enterprise system
- **Voluntary Exchange:** when consumer and producer agree to exchange money for a product both expect to gain
- **Private Property Rights:** property owners are protected from government seizure, prohibiting others from using their property, and having the right to buy and sell property
- **Competition:** When producers compete with one another to attract consumers, they create new products, resulting in more choices for the consumer.

2. Why have some nations begun a transition to a free enterprise? (6 points)

Some centrally planned nations are switching to free enterprise systems in order to keep pace with the evolving global economy.

3. How does the U.S. free enterprise system compare with other economic systems? (6 points)

The freedoms inherent in the U.S. free enterprise system (see question 1 above), and individuals, not government, make economic decisions.

4. What constitutional guarantees underlie American free enterprise system? (6 points)

Private property rights, free contract, and freedom from unfair taxation are guaranteed by the Constitution.

5. Name a benefit of the free enterprise system. (6 points)

- **An open opportunity for all to compete in the marketplace**
- **The production of a variety of goods and services**
- **Buyers and sellers are free to decide what will be produced**

Modern Principles of Economics Tyler Cowen, Alex Tabarrok, 2009-10-09 From the authors See the Invisible Hand Understand Your World That s the tagline of Modern Principles and our teaching philosophy Nobel laureate Vernon Smith put it this way At the heart of economics is a scientific mystery a scientific mystery as deep fundamental and inspiring as that of the expanding universe or the forces that bind matter How is order produced from freedom of choice We want students to be inspired by this mystery and by how economists have begun to solve it Thus we show how markets interconnect and respond in surprising ways to changes in resources and preferences Consider for example how markets respond to a reduction in the supply of oil Of course the price of oil increases giving consumers an incentive to use less and suppliers an incentive to discover more But an increase in the price of oil also encourages Brazilian sugar cane farmers to devote more of their production to ethanol and less to sugar thereby driving up the price of sugar An increase in the price of sugar means a reduction in the quantity of candy demanded So one way the market responds to a reduction in the supply of oil is by encouraging consumers to eat less candy In analyses like this we teach students to see the invisible hand and in so doing to understand their world Similarly we offer a unique and simple proof of the amazing invisible hand theorem that without any central direction competitive markets allocate production across firms in a way that minimizes aggregate costs To understand their world students must understand when self interest promotes the social interest and when it does not Thus Modern Principles has in depth analyses of externalities public goods and ethical issues with market incomes and trade Moreover we always discuss economic theory in the context of real world problems such as the decline of the ocean fisheries climate change and the shortage of human organs for transplant **Wiley CPAexcel Exam Review 2015 Study Guide (January)** O.
