don't always mesh. In some cases the evidence is compelling and definitive. In others far from it. Ultimately the book presents the important role of the forensic expert and expert witness as a vital and deciding factor as the courtroom proceedings play out. The cases presented in the book cases Dr Ferguson was personally involved with are interesting, the conclusions and results arrived at by Dr Ferguson are well thought out and backed by his scientific expertise. The results and conclusions arrived at by the courts is often expected, sometimes surprising in specific cases even controversial. Throughout all Dr Ferguson casts an independent and sometimes critical eye on the process, presenting a compelling argument and heartfelt recommendation for science, objectivity and justice to be served based on truth, truth insofar as the facts of the cases presented through evidence and the testimony provided within the judicial process. A fascinating read for university students, experts and witnesses, lawyers and judges and anyone involved in the forensic process in the trying of criminal and civil cases.

Mathematics, Art, Technology and Cinema MIRELLA MANARESI, 2003-07-21. This book is about mathematics. But also about art, technology and images. And above all about cinema, which in the past years together with theater has discovered mathematics and mathematicians. It was conceived as a contribution to the World Year on Mathematics. The authors argue that the discussion about the differences between the so-called two cultures of science and humanism is a thing of the past. They hold that both cultures are truly linked through ideas and creativity, not only through technology. In doing so they succeed in reaching out to non-mathematicians and those who are not particularly fond of mathematics. An insightful book for mathematicians, film lovers, those who feel passionate about images and those with a questioning mind. A history of the criminal law of England, 1883. *Court of Appeals: State of New York The People of the State of New York Against George A. Smith*,

With Love from the Inside Angela Pisel, 2016-08-09. Angela Pisel's poignant debut explores the complex relationship between a mother and a daughter and their quest to discover the truth and whether or not love can prevail even from behind bars. Grace Bradshaw knows the exact minute she will die. On death row for murdering her infant son, her last breath will be taken on February 15 at 12:01 a.m. Eleven years, five months and twenty-seven days separate her from the last time she heard her precious daughter's voice and the final moment she'd heard anyone call her Mom. Out of appeals, she can focus on only one thing: reconnecting with her daughter and making sure she knows the truth. Secrets lurk behind Sophie Logan's big house and even bigger bank account. Every day when she kisses her husband good-bye, she worries her fabricated life is about to come crumbling down. No one knows the unforgivable things her mother did to tear her family apart: not her husband, who is a prominent plastic surgeon, or her synthetic friends who live in her upscale neighborhood. Grace's looming execution date forces Sophie to revisit the traumatic events that haunted her childhood. When she returns to her hometown, she discovers new evidence about her baby brother William's death seventeen years ago: proof that might set her mother free but shatter her marriage forever. Sophie must quickly decide if her mother is the monster the prosecutor made her out to be or the loving mother she remembers: the one who painted her toenails glittery pink and plastered Post-it notes with inspiring
