Gender and Sexuality in 1968 L. Frazier, 2009-10-26 This unique volume brings together literary critics historians and anthropologists from around the world to offer new understandings of gender and sexuality as they were redefined during the upheaval of 1968 [Sex, France, and Arab Men, 1962-1979](#) Todd Shepard, 2018-01-08 The aftermath of Algeria's revolutionary war for independence coincided with the sexual revolution in France and in this book Todd Shepard argues that these two movements are inextricably linked Sex France and Arab Men is a history of how and why from the upheavals of French Algeria in 1962 through the 1970s highly sexualized claims about Arabs were omnipresent in important public French discussions both those that dealt with sex and

those that spoke of Arabs Shepard explores how the so called sexual revolution took shape in a France profoundly influenced by the ongoing effects of the Algerian revolution Shepard s analysis of both events alongside one another provides a frame that renders visible the ways that the fight for sexual liberation usually explained as an American and European invention developed out of the worldwide anticolonial movement of the mid twentieth century [Encyclopedia of Modern French Thought](#) Christopher John Murray,2013-01-11 In this wide ranging guide to twentieth century French thought leading scholars offer an authoritative multi disciplinary analysis of one of the most distinctive and influential traditions in modern thought Unlike any other existing work this important work covers not only philosophy but also all the other major disciplines including literary theory sociology linguistics political thought theology and more *Queer Theories: An Introduction* Lorenzo Bernini,2020-08-04 This is a short and accessible introduction to the complex and evolving debates around queer theories advocating for their critical role in academia and society The book traces the roots of queer theories and argues that Foucault owed an important debt to other European authors including the feminist and homosexual liberation movements of the 1960 1970s and the anticolonial movements of the 1950s Going beyond a simple introduction to queer theories this book situates them firmly in a European and Italian context to offer a crucial set of arguments in defence of LGBTQI rights in defence of the freedom of teaching and research and in defence of a radical idea of democracy The narrative of the book is divided into three short chapters which can be read independently or in sequence The first chapter argues that queer theories are rooted in the critical philosophical tradition the second presents a critique of heterosexism and the binary inherent to the gender sex sexual orientation system and the third chapter sketches a history of the queer debate The book offers a useful typology of queer theories by sorting them into three basic paradigms Freud Marxism radical constructivism and antisocial and affective theories clarifying the complexities of the nature of the debates for undergraduates The book is both accessible and original and is suitable for both specialist researchers and undergraduate students new to queer studies It will be essential reading for those studying philosophy sexuality studies and gender studies [Insult and the Making of the Gay Self](#) Didier Eribon,2004-07-07 Published in English for the first time Didier Eribon s well received and celebrated work on a philosophy of and examination of gay life **Articulations of Difference** Dominique D. Fisher, Lawrence R. Schehr,1997 Drawn from insights of the past twenty years the essays reflect the renewed approach of gender and sexuality as they relate to homosexuality and its representation and they rely on models that differentiate between sexuality and gender and between natural inclinations and social constructs Despite the wide variety of subjects critical positions and authors backgrounds what these essays have in common is the willingness of the contributors to go beyond a set of rhetorics a set of limitations that were a defining moment in the struggle of gay liberation and its reflection in both creative and critical writing [Human Rights Struggles in Twentieth-century France](#) Max Likin,2022-10-07 This book provides an introduction to human rights controversies in twentieth century France from the Dreyfus Affair at the beginning of the

century to the arguments over women and immigrants rights at its end Using the Ligue des Droits de l'Homme LDH or the League of the Rights of Man as a narrative thread for this chronological study the book tracks the gradual expansion of human rights in France in the wake of the two world wars the Algerian quagmire and decolonisation more generally Examining the capital role of the LDH whilst also highlighting the role of individuals and key activists the book helps us to contextualise the quandaries faced by unseen minorities particularly colonial subjects and women The analysis also demonstrates the influence of French human rights activism on key international documents of human rights law such as the Universal Declaration of Human Rights The LDH occupies a central place in French justice debates and is therefore an ideal template to analyse the rising influence of humanitarianism and crimes against humanity in French causes clbres from the 1970s onwards However the author goes further to look beyond the LDH and even France itself offering wide ranging surveys of dominant rights issues across Europe at any given period Drawing on extensive research and interviews with key members of the LDH this book provides an accessible overview of human rights struggles in twentieth century France
