alone control your actions Stoic philosophy asserts that your mind thoughts and actions are traces of a world which shapes you and everyone else together Our personal nature is part of a system not independent This book studies how a Stoic thinks and acts as part of a community and in service of a world rather than separately or for themselves alone This is not just another book about Stoic philosophy Stoicism has been popularized as a way to primarily serve personal benefits promising mental resilience in an uncontrollable world of people and events This book instead explores how for the Stoics we only benefit personally by being aware of how we are entangled with our fellow humans and the world This perspective reveals anti individualistic conditions for the well being that individuals seek from the philosophy By studying features that might seem to define us as separate individuals our mind body self preserving instinct knowledge and happiness we find that everything about each of us is interconnected and shared The theoretical analysis suitable for general and academic readers involves all ancient Stoic eras comparisons with pre Socratic Platonic and Aristotelian positions and modern Stoic debates
