

The HUB 09S is a further development of the popular HUB 09S, but it does everything better. Both cranes look very similar, but that's where the similarities cease.

The HUB 09S features a new, low-headroom boom system with a separate extension cylinder on each extension, yet have done away with all jacking on the outer boom and extensions, and reduced the fixed 50 t hook assemblies to just one – on the inner extension. All this leads to easier handling in confined areas, and new larger slide-pads considerably reduce friction and give smoother boom action.

The HUB 09S's working geometry has been optimised, resulting in better lifting capacity – in the upper lifting range, capacity has been boosted by over 20%. What's more, the 09S has an amazing close-in lifting height.

The HUB 09S is a droop-front general cargo crane in the 10 t-capacity class that offers excellent manoeuvrability. Choose between cross-controls, HUB's well-known 20-valve version with the new compact 160 or the more advanced compact 160 with HUB valve 16 and top-view or corner-plate.

The design solutions include bending the oil for the hydraulic cylinders through the rear section, which eliminates all external heating or cooling on the outer boom.

A pleasure to operate and safe – with the CompactDrive 160 control, or as shown here, the more advanced CompactDrive.
