### **Hidden Forces Fiction Beth Robinson:**

**Hidden Forces** Beth Robinson, 2015-12-18 A collection of short fiction unusual in style glimpsing the absurd and poignant in modern life     A Genealogy of the Gentleman Mary Beth Harris, 2024-03-15 A Genealogy of the Gentleman argues that eighteenth century women writers made key interventions in modern ideals of masculinity and authorship through their narrative constructions of the gentleman It challenges two latent critical assumptions first that the gentleman's masculinity is normative private and therefore oppositional to concepts of performance and second that women writers from their disadvantaged position within a patriarchal society had no real means of influencing dominant structures of masculinity By placing writers such as Mary Davys Eliza Haywood Charlotte Lennox Elizabeth Inchbald and Mary Robinson in dialogue with canonical representatives of the gentleman author Joseph Addison and Richard Steele David Hume Samuel Johnson and Samuel Richardson Mary Beth Harris shows how these women carved out a space for their literary authority not by overtly opposing their male critics and society's patriarchal structure but by rewriting the persona of the gentleman as a figure whose very desirability and appeal were dependent on women's influence Ultimately this project considers the import of these women writers legacy both progressive and conservative on hegemonic standards of masculinity that persist to this day

**Speaking Out** Tanya Serisier, 2018-11-19 This is the first critical study of feminist practices of speaking out in response to rape This book argues that feminist anti rape politics are characterised by a belief in the transformative potential of women's personal narratives of sexual violence The political mobilisation of these narratives has been an incredibly successful strategy but one with unresolved ethical questions and political limitations The book explores both the successes and the unresolved questions through feminist archival materials published narratives of sexual violence and mass media and internet sources It argues that that a rethinking of the role and place of women's stories and the politics of speaking out is vital for a rethinking of feminist politics around sexual violence and key to fresh approaches to combating this violence

*Reflections on Sentiment*  
 Alessa Johns, 2015-12-16

*Reflections on Sentiment* not only addresses current scholarly interest in feeling and affect but also provides an occasion to celebrate the career of George Starr who in more than fifty years of incisive scholarship and committed teaching has elucidated the work of Daniel Defoe and the role of sentimentalism in what was once reductively termed an age of reason and realism. Due to the critique Starr spearheaded, scholars today can approach with greater assurance the complex interplay of reason and emotion, thought and sensibility, science and feeling, rationality and enthusiasm, judgment and wit, as well as forethought and instinct, as these shaped the scientific, religious, political, social, literary, and cultural revolutions of the Enlightenment. Indeed, contributors to this anthology take inspiration from Starr's work to shed new light on Enlightenment thought and sociocultural formations, generally offering fresh interpretations of a period in which Reflection and Sentiment circulated mutually, influenced each other, and contended equally for cultural attention. In nine separate essays, they explore the ways sentiment and sentimentalism inflect the moral and ideological ambit of Enlightenment discourses, the sociopolitics of religious debate, the issues promoted by women writers by gender and family relations, the artistic and rhetorical uses of lived language, the impacts of cultural developments on novelistic form, and the wide shifts in the literary marketplace. Deploying tools advanced by new work in animal studies, gender criticism, media analysis, genre studies, the new formalism, and ethical inquiry, and enabled by the power of digitization and new databases, the authors of this volume explain how and to what ends denizens of the Enlightenment were touched and moved.
