**Deeper Shades of Purple** Stacey M. The contributors revisit Alice Walker's definition of womanism for its viability for the approaches to discourses in religion of Black women scholars. Anti-Colonialism and Education, 2006-01-01. There is a rich intellectual history to the development of anti-colonial thought and practice. In discussing the politics of knowledge production, this collection borrows from and builds upon this intellectual tradition to offer understandings of the macro-political processes and structures of education delivery, e.g., social organization of knowledge, culture, pedagogy, and resistant politics. The contributors raise key issues regarding the contestation of knowledge as well as the role of cultural and social values in understanding the way power shapes everyday relations of politics and subjectivity. In reframing anti-colonial thought and practice, this book reclaims the power of critical oppositional discourse and theory for educational transformation.

Anti-Colonialism and Education: The Politics of Resistance includes some of the most current theorizing around anti-colonial practice written specifically for this collection. Each of the essays extends the terrain of the discussion of what constitutes anti-colonialism. Among the many discursive highlights is the interrogation of the politics of embodied knowing, the theoretical distinctions and connections between anti-colonial thought and post-colonial theory, and the identification of the particular lessons of anti-colonial theory for critical educational practice. Essays explore such key issues as the challenge of articulating anti-colonial thought as an epistemology of the colonized, anchored in the indigenous sense of collective and common colonial consciousness, the conceptualization of power configurations embedded in ideas, cultures, and histories of marginalized communities, the understanding of indigeneity as pedagogical practice, and the pursuit of agency, resistance, and subjective politics through anti-colonial learning.

In Search of Wisdom, Prof. Anne E. Streaty Wimberly, Evelyn L. Parker, 2011-07-01. edited by Anne E. Streaty Wimberly. A guide for pastors, church leaders, and all who help African Americans in their search for a meaningful Christian lifestyle. Forming Christians, leading fallen and flawed human beings into the path of discipleship to a crucified and risen Lord, is one of the central if not the central tasks of all Christian churches. It is a difficult enough task anywhere, but for African Americans beset by racial conflict, personal crises, generational separation, and other concerns, it is especially so. African American churches must work particularly hard to counter the messages their members receive from the dominant and often unfriendly culture. This book employs the biblical text and African tradition to draw on the idea of the search for wisdom as a potent way to help African Americans in their pursuit of genuine Christian

discipleship Wisdom in African American tradition is not simply knowledge rather it is those insights attitudes beliefs behaviors and practices that create and sustain a life of hope and that produce an inherent sense of the worth of one's self If their members are to engage in the search for wisdom African American churches must build an intentional ministry of faith formation Wisdom can be gained the authors argue when African Americans listen to the black oral tradition with its proverbial sayings revered Bible stories songs and narratives from the lives of exemplary individuals The book offers several similar avenues for the search for wisdom including helpful models of black males mentoring younger black males as a remedy to the destructive effects that contemporary culture has on this segment of the African American community

Hidden in Plain Sight Robert P. Debelak Jr., 2008-02-15 Hidden in Plain Sight explores the potential contours of reading biblical narrative The Old Testament book of Esther is used to advance a prospective shape for this reading method and proposes a profile for

curriculum design This work demonstrates that the text of Scripture itself proposes a reading method Esther is an underestimated heroine in her story world Her character is informed by the silent actions of Vashti and by the intentionality of Mordecai She is confronted with a writing that challenges her with few options each of which is deconstructed and focused in community dialogue At a pivotal stage in the narrative she acts in solidarity with those under a death threat emerging as an agent of life Esther's actions and speeches are traced as one entry into a story world proposing a means for students of Scripture to gain appreciable reading skills via sensitivity to the general components of Old Testament narrative This reading informs a study method enabling direct engagement with a text and appreciation for the art of literary crafting The approach is suitable for Christian education and biblical study settings at the academic level and for use in local church ministries
