Discovering Hidden Gems in Foreign Languages

M.D. Miller, 2023-04-27

This book offers a practical approach to conducting research in foreign languages on topics with a global nexus. It introduces the problem researchers face when getting started with a research problem, such as setting up the research environment and establishing goals for the research. The researcher then needs to prepare and to conduct foreign language research by generating key terms and searching the right places where the information they seek is most likely to be stored. Using the appropriate advanced search operators, the researcher narrows down the search results to the desired sources, thereby eliminating the irrelevant sources. Specialized knowledge of country-specific domains advances the specificity and relevance

of the researcher's efforts. The methods and tools demonstrated in this book are applicable to a variety of academic and practical fields. A doctor may ask what are other experts in my field saying about ABC disease. A sommelier may ask where else in the world are XYZ grape varieties grown. A businessman may ask who are my global competitors in my market. A doctoral student may ask have any other students at universities abroad ever written a dissertation about my topic too. With the tools and techniques demonstrated in this book, all of these questions are answerable. This book concludes with chapters on translation and citation methods and includes three case studies that demonstrate the practical use of the methods discussed above. This book targets academic researchers as well as students and faculty. This book will also be a good fit as an assigned reading for a college course on thesis/dissertation research.

Hidden Impact Piper J. Drake, 2015-11-09. Meet the men of Centurion Corporation, an elite group of mercenaries who will go to any extreme to complete a mission, even risk their hearts. A new high stakes series by Piper J. Drake. He's not the hero she's looking for. As part of the elite Centurion Corporation team, military veteran turned mercenary Gabriel Diaz is a natural defender. He'll do anything to ensure a mission is successful. Anything but get emotionally invested, he learned the hard way that can be deadly. Easy bodyguard jobs in between the more challenging missions are all he's interested in now. Maylin Cheng is desperate and running out of time. Her younger sister has gone missing, but no one seems to take her concern seriously. Her last hope lies in asking an aloof bodyguard for help. He dismisses her outright, but all that changes when she is almost killed in a not-so-accidental hit and run right before his eyes. As Maylin leans on Gabriel, she begins to rely on him for more than just her safety. But as their attraction grows, so does the danger surrounding them. When the elaborate web they're trapped in unravels, Gabriel will do anything to protect them. Even if that means putting his heart in the crosshairs. Book one of the Safeguard series.

Yufa! A Practical Guide to Mandarin Chinese Grammar Wen-Hua Teng, 2016-11-10. Yufa! A Practical Guide to Mandarin Chinese Grammar takes a unique approach to explaining the major topics of Mandarin Chinese grammar. Script Effects as the Hidden Drive of the Mind, Cognition, and Culture Hye K. Pae, 2020-10-14. This open access volume reveals the hidden power of the script we read in and how it shapes and drives our minds, ways of thinking, and cultures. Expanding on the Linguistic Relativity Hypothesis, i.e. the idea that language affects the way we think, this volume proposes the Script Relativity Hypothesis, i.e. the idea that the script

in which we read affects the way we think by offering a unique perspective on the effect of script alphabets morphosyllabaries or multi scripts on our attention perception and problem solving Once we become literate fundamental changes occur in our brain circuitry to accommodate the new demand for resources The powerful effects of literacy have been demonstrated by research on literate versus illiterate individuals as well as cross scriptal transfer indicating that literate brain networks function differently depending on the script being read This book identifies the locus of differences between the Chinese Japanese and Koreans and between the East and the West as the neural underpinnings of literacy To support the Script Relativity Hypothesis it reviews a vast corpus of empirical studies including anthropological accounts of human civilization social psychology cognitive psychology neuropsychology applied linguistics second language studies and cross cultural communication It also discusses the impact of reading from screens in the digital age as well as the impact of bi script or multi script use which is a growing trend around the globe As a result our minds ways of thinking and cultures are now growing closer together not farther apart
