Hiding From Humanity Disgust Shame And The Law By Nussbaum Martha C 2006:

Nussbaum and Law Robin West, 2017-07-05 The essays collected in this volume reflect the profound impact of Martha Nussbaum's philosophical writings on law and legal scholarship. The capabilities approach that she has largely authored has influenced the approach scholars take to the law of disabilities both in the United States and in Canada as well as to international human rights and to domestic private law's protections of vulnerable populations. Her analyses of the relationship between our emotions and our thought and action has triggered a re-assessment of the legal regulation and recognition of emotion in a range of fields most particularly in the field of criminal law and her writing on the nature of dignity has informed an understanding of the emerging civil rights of gay and lesbian citizens worldwide. Our appreciation of the role of narrative in legal thought and discourse and the contributions of literature to law and legal culture have also been broadened and deepened by her contributions. Taken together and including the introduction by the editor the essays collected in this volume demonstrate the far-reaching impact of Nussbaum's philosophical oeuvre. The Cambridge Handbook for the Anthropology of Ethics James Laidlaw, 2023-05-25 The ethical turn in anthropology has been one of the most vibrant fields in the discipline in the past quarter century. It has fostered new dialogue between anthropology and philosophy, psychology and theology and seen a wealth of theoretical innovation and influential ethnographic studies. This book brings together a global team of established and emerging leaders in the field and makes the results of this fast-growing body of diverse research available in one volume. Topics covered include the philosophical and other intellectual sources of the ethical turn, inter-disciplinary dialogues, emerging conceptualizations of core aspects of ethical agency such as freedom, responsibility and affect and the diverse ways in which ethical thought and practice are institutionalized in social life both intimate and institutional. Authoritative and cutting edge it is essential reading for researchers and students in anthropology, philosophy, psychology and theology and will set the agenda for future research in the field. **Extravagance and Misery** Alan Thomas, Alfred Archer, Bart Engelen, 2024-10-22 Extravagance and Misery discusses the economic inequalities that characterize capitalist societies. What causes these inequalities? Why are they unfair? Do they make us unhappy and if so why? Which stories do we tell each other about those inequalities and why do these stories help perpetuate them? What role do emotions such as shame amongst the poor and envy and admiration for the rich play? The authors draw on insights from philosophers, economists, psychologists and other scientists to explain the structural mechanisms underlying inequality and the impact it has on our well-being and happiness. The result is an explanation of the emotional regime that characterizes our capitalist societies and that perpetuates the unfair gap between the extravagance of the rich and the misery of the poor. Finally Extravagance and Misery proposes how to re-shape this emotional regime in the interests of justice and solidarity. The Capability Approach on Social Order Niels Weidtmann, Yanti Martina Hölzchen, Bilal Hawa, 2012 The Capabilities Approach as pioneered by Martha C. Nussbaum and others elevates the enabling of free self-development to a criterion of

social justice In recent years it has become a widely accepted paradigm in Western development policies and currently it is discussed to which extent this normative framework can be applied to other social areas This volume presents interdisciplinary papers resulting from discussions that young scholars of different disciplines had with Martha C Nussbaum during the Unseld Lecture 2010 at the Forum Scientiarum of Tübingen University Series Interdisciplinary Research Works at FORUM SCIENTIARUM Interdisziplinäre Forschungsarbeiten am FORUM SCIENTIARUM Vol 4

Environmental Guilt and Shame Sarah E. Fredericks, 2021 This study shows that many people in the US feel guilt about their everyday life It explores many ethical questions including whether individuals or collectives are the guilty or shameful parties whether agents should have these feelings whether people should induce guilt or shame in others and how people can respond to such feelings

Mill on Justice L. Kahn, 2012-03-13 John Stuart Mill was one of the most important figures in political philosophy but little has been published on his ideas on justice This impressive collection by renowned Mill scholars addresses this gap in Mill studies and theories of justice

The Limits of Ethics in International Relations David Boucher, 2009-05-21 In his major new work David Boucher surveys the history of thinking about human rights and shows that far from being seen as universal and emancipatory they have almost always privileged certain groups in relation to others

Nussbaum's Politics of Wonder Jeremy Bendik-Keymer, 2023-01-26 In an unconventionally written book that challenges the literary imagination of its readers Jeremy Bendik Keymer explores how wonder is central to Martha C Nussbaum's normative project Nussbaum's work is opposed to the emotional and political conditions of narcissism the tendency to seek to control the wills of others in order to defend oneself against perceived vulnerabilities Our capacity for wondering is important for growing beyond narcissism Bendik Keymer elaborates a politics of wonder that is consistent with understanding this idea Taking issue with understandings of wonder viewing it as an emotion of surprise or delight he develops an alternate tradition finding wonder in concert with the freedom of imagination found by degrees within much of human understanding The result is a constructive rereading of Nussbaum's oeuvre surprising for how it disencumbers her work of some falsehoods surrounding anxiety and anger and for the ways it implies an egalitarian politics of relational autonomy more socialist than liberal Misty Morrison's visual inquiry accompanies the book creating space for the reader to wonder Morrison paints and prints how families involve wonder starting with moments in her child's life when she wonders what they might see Nussbaum's *Politics of Wonder* is an important contribution to the philosophy of wonder and is crucial for understanding the work of a leading philosopher

Values and Vaccine Refusal Mark Navin, 2015-09-16 Parents in the US and other societies are increasingly refusing to vaccinate their children even though popular anti vaccine myths e g vaccines cause autism have been debunked This book explains the epistemic and moral failures that lead some parents to refuse to vaccinate their children First some parents have good reasons not to defer to the expertise of physicians and to rely instead upon their own judgments about how to care for their children Unfortunately epistemic self reliance systematically distorts beliefs in areas of inquiry in which expertise is

required like vaccine immunology Second vaccine refusers and mainstream medical authorities are often committed to different values surrounding health and safety For example while vaccine advocates stress that vaccines have low rates of serious complications vaccine refusers often resist vaccination because it is unnatural and because they view vaccine preventable diseases as a natural part of childhood Finally parents who refuse vaccines rightly resist the utilitarian moral arguments for the greater good that vaccine advocates sometimes make Unfortunately vaccine refusers also sometimes embrace a pernicious hyper individualism that sanctions free riding on herd immunity and that cultivates indifference to the interpersonal and social harms that unvaccinated persons may cause

Aristotle on Emotions in Law and Politics Liesbeth Huppes-Cluysenaer, Nuno M.M.S. Coelho, 2018-02-13 In this book experts from the fields of law and philosophy explore the works of Aristotle to illuminate the much debated and fascinating relationship between emotions and justice Emotions matter in connection with democracy and equity they are relevant to the judicial enforcement of rights legal argumentation and decision making processes in legislative bodies and courts The decisive role that emotions feelings and passions play in these processes cannot be ignored not even by those who believe that emotions have no legitimate place in the public sphere A growing body of literature on these topics recognizes the seminal insights contributed by Aristotle This book offers a comprehensive analysis of his thinking in this context as well as proposals for inspiring dialogues between his works and those written by a selection of modern and contemporary thinkers As such the book offers a valuable resource for students of law philosophy rhetoric politics ethics and history but also for readers interested in the ongoing debate about legal positivism and the relevance of emotions for legal and political life in today's world

Relating God and the Self Jan-Olav Henriksen, 2016-04-08 Religion is not only about understanding the world it is just as much about how to develop and shape the self's experience of itself Because the religious self is shaped

by our symbols of God and symbols of God are also shaped by the self theology and philosophy of religion cannot ignore this interplay or the psychological dimension when they discuss what symbols of God are adequate and not By discussing critically different ways the symbol of God functions in the formation of the self the book develops a nuanced and original approach to the interplay between God and the self It suggests that play is actually an important metaphor in order to develop a dynamic understanding of religion s way of relating God and the Self This approach challenges understandings of religion focussing only its cognitive claims as well as those who emphasize doctrinal orthodoxy as the most important element in religion

Philosophical Inquiries into Pregnancy, Childbirth, and Mothering Sheila Lintott, Maureen

Sander-Staudt, 2013-03-01 Philosophical inquiry into pregnancy childbirth and mothering is a growing area of interest to academic philosophers This volume brings together a diverse group of philosophers to speak about topics in this reemerging area of philosophical inquiry taking up new themes such as maternal aesthetics and pursuing old ones in new ways such as investigating stepmothering as it might inform and ground an ethics of care The theoretical foci of the book include feminist existential ethical aesthetic phenomenological social and political theories These perspectives are then employed to consider many dimensions of pregnancy childbirth and mothering which are of central importance to human existence but are only rarely discussed in philosophical canons Topics include pregnancy and embodiment breast feeding representations or the lack thereof of pregnant and birthing women adoption and post partum motherhood

Interdisciplinary Perspectives on Shame Cecilea Mun, 2019-10-09 Shame is one of the most stigmatized and stigmatizing of emotions Often characterized as an emotion in which the subject holds a global negative self assessment shame is typically understood to mark the subject as being inadequate in some way and a sizable amount of work on shame focuses on its problematic or unhealthy aspects effects or consequences Interdisciplinary Perspectives on Shame reorients readers to a more balanced understanding of what shame is as well as its value and social function The contributors recognize shame as a complex richly layered conscious or unconscious phenomenon and the collection offers an understanding of how theories of shame can help or hinder us in understanding ourselves others and the world around us It also highlights how a diverse range of perspectives on shame can enlighten our understanding of both the positive and negative aspects of this powerful emotion Edited by Cecilea Mun these chapters by an international group of scholars reflect a broad range of methods disciplinary perspectives and both theoretical and practical concerns regarding shame

of political thought with ongoing debates Readers gain insights into various conceptions about the nature of freedom different ways of understanding equality longstanding debates over punishment questions concerning the value of human rights issues of global justice and severe poverty approaches to handling climate change and much more Helping readers develop informed opinions on central issues Political Philosophy The Fundamentals Discusses divergent views about the different forms and limits of freedom that philosophers have defended over time Provides a historical perspective of contemporary understandings of human rights and their origins in natural law and natural rights Illustrates the multiple ways that freedom has been understood including commonalities and differences Examines various ways of implementing equality and assessing their merits Covers influential work by John Rawls that envisions a well ordered society governed by principles of justice Featuring carefully selected further readings in each chapter Political Philosophy The Fundamentals is essential reading for undergraduate students and general readers interested in the historical development and present day debates over political ideas and institutions

Human Dignity in Contemporary Ethics David G. Kirchhoffer, 2013 Human Dignity in Contemporary Ethics develops a holistic and relevant understanding of human dignity for ethics today Whilst critics of the concept of human dignity call for its dismissal and many of its defenders rehearse the same old arguments this book offers an alternative set of methodological assumptions on which to base a revitalized and practical understanding of human dignity which at the same time overcomes the challenges that the concept currently faces The Component Dimensions of Human Dignity model enables human dignity to serve both as a descriptive category that explains moral choices and as a normative criterion that helps to evaluate moral behaviour A consideration of two cases violent crime and physician assisted suicide demonstrates how the model offers a way to avoid the pitfalls of both moralism and moral relativism while still leaving space for relativity in ethics By using an approach that should be acceptable to both religious and secular perspectives alike this book offers a unique way out of the dignity talk that currently plagues ethics

Trial Stories in Jewish Antiquity Chaya T. Halberstam, 2025-05-15 What can early Jewish courtroom narratives tell us about the capacity and limits of human justice By exploring how judges and the act of judging are depicted in these narratives Trial Stories in Jewish Antiquity Counternarratives of Justice challenges the prevailing notion both then and now of the ideal impartial judge As a work of intellectual history the book also contributes to contemporary debates about the role of legal decision making in shaping a just society Chaya T Halberstam shows that instead of modelling a system in which lofty inaccessible judges follow objective and rational rules ancient Jewish trial narratives depict a legal practice dependent upon the individual judge's personal relationships reactive emotions and impulse to care Drawing from affect theory and feminist legal thought Halberstam offers original readings of some of the most famous trials in ancient Jewish writings alongside minor case stories in Josephus and rabbinic literature She shows both the consistency of a counter tradition that sees legal practice as contingent upon relationship and emotion and the specific ways in which that perspective was manifest in

changing times and contexts **Grace Jantzen** Professor Elaine L Graham,2013-06-28 Grace Jantzen was an internationally renowned feminist philosopher of religion whose work has transformed the way we think about the interactions between religion culture and gender in Western culture Jantzen s aim was to redeem the present via a critique and reconstruction of staple concepts of the Western imaginary This unique book brings together many of Grace Jantzen s colleagues and former students in a wide ranging exploration of her enduring influence ranging across philosophy of religion to literature psychoanalysis theology ethics and politics Part I assesses the ramifications of Jantzen s affirmation that Western culture must choose life in preference to a prevailing symbolic of violence and death Part II explores some of the key voices which contributed to Jantzen s understanding of a culture of flourishing and natality Quaker thought and practice medieval mysticism and feminist spirituality Further essays apply elements of Jantzen s work to the politics of disability development and environmentalism extending her range of influence into new and innovative areas **Inferno** Robert A. Ferguson,2014-03-03 Robert Ferguson diagnoses all parts of a massive out of control punishment regime Turning the spotlight on the plight of prisoners he asks the American people Do we want our prisons to be this way Acknowledging the suffering of prisoners and understanding what punishers do when they punish are the first steps toward a better more just system **The Ethics of Need** Sarah Clark Miller,2013-03-01 The Ethics of Need Agency Dignity and Obligation argues for the philosophical importance of the notion of need and for an ethical framework through which we can determine which needs have moral significance In the volume Sarah Clark Miller synthesizes insights from Kantian and feminist care ethics to establish that our mutual and inevitable interdependence gives rise to a duty to care for the needs of others Further she argues that we are obligated not merely to meet others needs but to do so in a manner that expresses dignifying care a concept that captures how human interactions can grant or deny equal moral standing and inclusion in a moral community She illuminates these theoretical developments by examining two cases where urgent needs require a caring and dignifying response the needs of the elderly and the needs of global strangers Those working in the areas of feminist theory women s studies aging studies bioethics and global studies should find this volume of interest
