Higgs Field Unveiled Gods Creation:

Mysteries of the Universe-Unveiled Satya Prakash Verma,2015-03-21 In spite of the fact that the story of Blind Students and the Elephant is merely a story the same has been repeated several times in the history of the mankind right from the primordial times till to date in fact this is the way science has gradually grown on its journey of evolution Scientists have to face similar situations on many occasions they never get full information before devising any theory instead they discover part truths in several steps each of which is discovered after long periods of time This is analogous to concept developed by a blind man who forms an idea about the elephant by touches only one of its body part Scientists can therefore consider only one aspect of a problem at a time they encounter with other aspects of the same problem at a much later point of time At times such a situation might lead to misconceptions Sometimes such misconceptions conceived by some renowned personalities are even considered to be very brilliant ideas and valuable achievements As a result heritage of falsified knowledge had been transferred several times in the past to at least next 3 4 generations This becomes possible because common man blindly follows renowned persons who are considered to be wise normally no one even bothers to verify the truth this is the greatest misfortune of the human kind Misjudging or regarding such misconceptions as valuable discoveries might cause science to divagate from its path to find out absolute truth a very long and valuable time might also be lost in elimination of such misconceptions

Higgs Field Unveiled Gerald Scanlon,2015-12-08 Simple ideas or models can

change the way we think about our universe and the creation of it Gerald W Scanlon is the first to link quantum theory to the creation of the universe In his previous groundbreaking book God s Particle and Elements Core of the Universe the author presented a model showing the elements were created in the first moments of the universe He presented a simple yet concrete visual model showing the elements as they came into existence at the Big Bang In his latest book Higgs Field Unveiled the author takes us even farther back into time He defines God s Field as the portion of the Higgs Field closest to the location where the Big Bang took place A timeline of events is presented showing God s Field actually preceded the formation of elements During the process of creation fundamental particles such as quarks and electrons were first formed on God s Field and later combined to form elements Gerald W Scanlon presents a visual model of the early universe revealing the hidden underlying structure on which it is built The model presented is so compelling one wonders if it is part of the long sought after unified theory The perfect symmetry shown on the model seems to leave little doubt of its accuracy The author develops a timeline of events as they unfolded at the Big Bang by Designing innovative periodic tables which directly link the creation of the elements to the Big Bang Unveiling the underlying structure of God s Field Providing step by step images showing God s Field as it transforms from a balanced field to an unbalanced field Linking God s Field to the elements Associating fundamental particles on God s Field with each of the elements Showing up and down quarks on God s Field as they combine to form protons and neutrons This book is printed in full color **Mystery Babylon Unveiled** Isaac

Invading the Realm of Demons, Disease, and Death Carl E.

Roemer,2024-01-29 This study of the miracles attributed to Jesus in the Gospels begins with a survey of the sciences because in our present cultural context materialism is the dominant approach to and understanding of our world of history and of our very selves If the materialist s understanding is true then there is no such thing as miracles because every event must occur as the result of some previous material events Contemporary biblical scholarship mostly approaches the miracle stories from a materialist point of view It questions their historicity because they violate what has now become the entrenched modus operandi in our culture and society operating with the idea that the universe is a closed nexus of cause and effect The miracles are understood then as products of the community and not historical reports although according to this line of scholarship they may be based on some vague recollection of Jesus s activity that somehow had healing effects Modern science however as one scientist has put it in climbing the mountain of knowledge has reached its peak and found a theologian at the top The sciences in other words have led to the implication that our universe has a creator and that the universe and the human genome have been designed

Moses a Work in Progress Dr. Shay Shelton Hoffman,2015-07-10 This is a story It is only a story However I have tried to make the story fit with the history surrounding the biblical account along with other relative stories This is an attempt to fill in details of an ancient story so that it may be possible for the reader to visualize the life and development of one of our biblical heroes Many times we think that perhaps God will just send us a burning bush experience and we will be ready to charge off into history doing great things for God Yes Moses had a burning bush experience and a spoken direction from God And yes he then led 2 million people out of slavery into freedom But Moses was eighty years in training It was not until he crossed the Red Sea that Moses began to live through a period of time that would afford his maximum learning experiences

The Trinity Is the Matrix Gary D. Combs,2021-04-12 Solved are two great mysteries science s search to understand the grand unified theory of everything and Christianity s search to understand the Lord s omnipresent nature both of which are the exact same thing only clothed in different terminology Thus making the Big Bang Theory and the Theory of Evolution both Biblical principles as first recorded in the Genesis account of creation written by Moses some 3 500 years ago

Religious Education and Critical Realism Andrew Wright,2015-11-19 Religious Education and Critical Realism Knowledge Reality and Religious Literacy seeks to bring the enterprise of religious education in schools colleges and universities into conversation with the philosophy of Critical Realism This book addresses the problem not of the substance of our primal beliefs about the ultimate nature of reality and our place in the ultimate order of things but of the process through which we might attend to questions of substance in more attentive reasonable responsible and intelligent ways This book unpacks the impact of modern and post modern thought on key topics whilst also generating a new critically realistic vision Offering an account of the relationship between Religious Education and Critical Realism this book is essential reading for students scholars and practitioners interested in philosophy theology and education

Modernity, a World of Confusion: Reality and Choice Jack Stanfield,2013-02-05 Do things bring happiness Do you believe only what you see What is truth What can you reliably know Is death nothingness Does God exist This book examines such questions from which two distinct world views arise and are surveyed The book examines reality how our choices determine our character and final destination knowledge and limitations of science surveys relativity quantum physics life evolution and mans uniqueness and looks at realitys material and immaterial aspects Genesis is reviewed and shown to have scientific meaning The book ends by proposing two very different paths that one can choose to follow

Creation and Cosmos - The Literal Values of Genesis Garrison Clifford Gibson,2012-11-27 There are many questions that intelligent people have about the Bible science and evolution theory Finding intelligent answers is difficult The problem is that specialization is required in the sciences in philosophy and theology so people tend to pick one and disregard the others There aren t so many people that consider all three fields with much depth of understanding I made a try at that and wrote a book that is free to download It is not only difficult to understand all three fields it is difficult to select what should be written about and difficult to write well I didn t by any means cover everything there is lots to cover

All Things Spiritual Phillip Eldridge Williams, 2022-01-12 This short quip referred to in conversation and seen often in descriptive writing as well as various and sundry speeches is in reality on shaky ground when taken apart The truth has been the object of the search of man since he became serious with his ontology from earliest recorded history and finds its way in most academic institutions with each Latin phrase in its logo Matter has always been taken for granted but until recently 1939 with the declaration of the Physicists community in Copenhagen Denmark has acknowledged that indeed there is no final field theory for locating reality In this book I will attempt to speak to this lack of reality by delving into the state of being or lack thereof I will refer to as spirituality and the Native American priority given to the Great Spirit and the answer they give to one's ontology why one is here known as their vision quest We will investigate spirituality as that encounter we all must deal with in our religious medium for finding some sense of meaning and its answer to our need for respect I'll look at the Judeo Christian offering of the image of God and the spooky goings on at a distance stipulated by Albert Einstein as well as the implications of Galileo's insightful declaration in the 17th century that all meaning begins with experience spirituality and ends with experience that spirituality is all that there is and to offer proposals based upon purely logic alone is meaningless as regards reality Spirituality in the best sense of the word is your taking serious your honor as well as that of others This could be seen as the First and Greatest Commandment and the Second like unto it Thy neighbor as thyself This work is the culmination of 15 years of writing and a lifetime of seeking first the kingdom of God and his righteousness having all these things being added unto me Matthew 6 33 Now to have all these things added unto you is to be quickened with eyes to see and ears to hear things matter as they are and not from the might makes right syndrome or the what's in it for me modus operandi This quickening power is the mighty hand of God as opposed to the hand of God revealing the nature of truth God's righteousness as being no respecter of persons time place or thing and doing so unconditionally This is indeed the Final Field or the Truth of the Matter *Our Crumbling Civilization and Collapsing Universe of 5 Percent* Plammoottil Cherian, 2021-01-11 It is the biggest question of all in the universe when and from what universe came into being and how it

expanded It puzzled Einstein and many other cosmologist after him Finally they have discovered the particle which they mysteriously named the God particle As the mystery surrounds this particle their quest will either end in finding God the source of the particle or not In an age when biblical truth are considered fairytales by many a scientists someone must be bold enough to tell the truth that in the beginning the universe was void and darkness prevailed in the entire cosmos until God separated darkness by his eternal light and used 5 percent of the dark matter to create the universe and everything within it Dr Cherian courageously links the Scriptures and the science behind the dark matter and the scientists who were divinely guided to name it the God particle Newton s and Einstein s dreams have been materialized and though not accepted by the vast majority of scientists openly many are compromising that universe formed from a cosmic evolution and life evolved abiogenetically and God interjected his presence into the process of evolution to claim his role a most absurd stand While the latest scientific discoveries tackled the biggest mystery of the universe scientific discoveries have corroborated the truth man humanity is nothing but specks of the dust Ps 103 14 While God who created the universe sits enthroned above the circle of the earth and stretches out expanse the heavens like a canopy and spreads them out like a tent Isa 40 22 is also holding the universe in his hands Dr Cherian brings to light the neglected truth that science and theology are the perfect match of God s truth in the universe Most of the scientific discoveries deciphered during the last five hundred years are recorded in the Bible including water in the exoplanets and the dark matter and dark energy that have been discovered recently The author has succinctly explained with specific biblical references and explanations The author also reveals that from Plymouth Rock to Independence Hall and throughout the length and breadth of America the profound Christian heritage is engrained in every inch of the land and America cannot negate God from our land God s systematic order of creation was schemed as stages of unguided evolution All Christians of the nation must reinvent the declaration by the Supreme Court of the United States in 1892 that This a Christian Nation and present day lawmakers must adhere to that with freedom and liberty for all Like a skilled attorney the author explains America is part of the Israel of God and a member of the Commonwealth of Israel as explained by Apostle Paul The United States of America and the United Kingdom are two nations blessed by God under the protection of the Almighty God and we have a moral mandate to preserve our godly culture and civilization and lead other nations to follow before Armageddon which is imminent God's Headquarter Irfan A. Karowalia, 2021-01-29 The search for the truth about a creator is as old as time itself Is God real or is this deity only a legend passed down through time a mere figment of our inherited imaginations It s age old question asked by millions over the centuries Intelligent and curious Aydin is no ordinary 18 year old A science student Aydin struggles with what he has been taught and the strong religious beliefs which run through his very veins He starts to mediate in earnest in the hope it will bring him closer to the answer can science and religion be juxtaposed Why should we have to believe in one or the other and not both working together Not in a million years would this curious teenager imagine that the very questions he asked were

about to be answered in the most awe inspiring fashion He has kept to his strict meditation schedule and now it s time for bed another sleepless night perhaps Since these questions have been plaguing him Aydin has not been able to rest easy Suddenly Aydin feels himself rising off the bed and bathed in blinding light As the light dims he sees two egg shaped objects coming straight towards him His journey is about to begin A supernatural being emerges This dimension traveller introduces himself as Ridz the Creators chief Li Bot who is here to take Aydin on a journey of enlightenment Aydin finds himself on a breath taking ride across and up the skies to a world he could never have imagined existed There are seven levels to God s Headquarters Ridz tells him and if Aydin had any doubts about this what this glorious being is telling him is just the tip of the iceberg Aydin is whisked to the start of the level process Zoology where he learns about the delicate Balance of Life and all its mechanisms There s drive libraries and control desks containing what proves to be a multitude of dimensions erstwhile unknown to humankind He encounters a humanoid and dinosaur hybrid equipped with hundreds of unique designs Hybz the Li Bot in charge of hybrid life forms show him a design capable of moving on either two or four legs with equal ease with a skin like a crocodile horns like rhinos and a face like a dragon There are 3D creatures with highly evolved telepathic powers who can twist their heads and limbs at 360 degree angles others can remove or grow limbs at will swap wings for fins and shoot horns at the speed of light He marvels at flying horses like unicorns and the Burrower a mole human hybrid with highly evolved powers It s like living a fairy tale Aydin marvels During the Tour of the Levels he realizes that he is the first human being to be granted this journey of passage through the realms of eternity Why me Aydin asks The answer is simple Aydin s soul is pure the colour of a bright white light giving him almost unlimited access to the levels The emphasis is on almost however As Aydin transcends levels past the level of light and dark forms and the level with the workings of the universe and its ingredients he asks to visit the ultimate level for an audience with the Creator This time it is not to be Ridz tells him Work on your already advanced state of purity and return for the ultimate tour When he awakes the next morning Aydin knows one thing for certain a supreme Creator does indeed exist in the most complex and scientific form beyond any human s wildest imagination Will anyone ever believe him
