High-tech Entrepreneurship Michel Bernasconi, Simon Harris, Mette Moensted, 2006 Edited by a multi national team this comprehensive book focuses on the blend of theory and practice needed to accurately inform advanced entrepreneurship students of the specifics of high tech start ups

High-Tech Entrepreneurship Michel Bernasconi, Simon Harris, Mette Moensted, 2013-01-11 High tech businesses form a crucial part of entrepreneurial activity in some ways presenting very typical examples of entrepreneurship yet in some ways representing quite different challenges The uncertainty in innovation and advanced technology makes it difficult to use conventional economic planning models and also means that the management skills used in this area must be more responsive to issues of risk uncertainty and evaluation than in conventional business opportunities Specifically focusing on the mix of theory and practice needed to accurately inform students the key topics covered include uncertainty and innovation entrepreneurial finance marketing technological innovations high tech incubation management Including case studies to give practical insights into genuine business examples this comprehensive book has a distinctly real world focus throughout Edited by a multi national team it draws together leading writers and researchers from across Europe making it a must read for all those involved in advanced entrepreneurship with specific interests in high tech start ups

Science and Technology Based Regional Entrepreneurship Sarfraz A. Mian, 2011 Providing a global survey of public policies and programs for building national and regional ecosystems of science and technology based entrepreneurial development this book provides a unique analysis of the advances over the last several decades and in light of the experiential knowledge gained in various parts of the world in the understanding of innovation systems in the pursuit of developing these economies Presenting nineteen case studies of diverse developed and emerging economy nations and their regions more than thirty expert authors describe an array of policy and program mechanisms that have been implemented over the years The in depth analyses of the worldwide efforts featured in this volume provide the reader with several valuable lessons There are clear indications of a trend toward better cohesion and coordination of national efforts to improve innovation but also a trend toward the broadening of regional agendas to address technology talent capital innovation infrastructure and entrepreneurship culture issues considered essential for knowledge based entrepreneurial growth The book also offers a unique treatment of grassroots level programmatic aspects of these efforts including some novel entrepreneurial mechanisms employed for policy implementation The book s blend of theory and practice provides valuable insights to the reader particularly government academic and private sector policymakers and scholars researching or involved directly with efforts to build and support the development of science and technology based entrepreneurial regions

[ECIE2011- 6th European Conference on Innovation and Entrepreneurship](#) Alexandros Kakouris, 2011

Uncertainty, Innovation and the City Daniele Chiffi, Stefano Moroni, 2025-08-11 This pioneering book investigates the complex nature of urban systems exploring how uncertainty plays a

crucial role in understanding cities Daniele Chiffi and Stefano Moroni develop a relational theory to examine cities as dynamic networks of interaction between people and objects rather than as fixed structures Industry Forward and Technology Transformation in Business and Entrepreneurship Mohd Nor Hakim Yusoff,2023-07-31 This book bringing together selected papers from the 10th International Conference on Entrepreneurship Business and Technology InCEBT on the overarching theme of Industry Forward and Technology Transformation in Business and Entrepreneurship provides the audience some preliminary understanding of the current and emerging trends in entrepreneurship and business activities This includes the usage of information and digital technology in business competition in a digital economy its challenges and opportunities and transformation of business and entrepreneurship for the forward industry *Digital Enablement: The Consumerizational And Transformational Effects Of Digital Technology* Shan-ling Pan,Sandeep Mysore Seshadrinath,2018-04-26 This collection of papers from the Digital Enablement Conference 2016 aims to illustrate various aspects of the digital enablement phenomenon Over the last two decades advances in digital technology have fundamentally transformed the way we do business work and live As new technologies emerge they offer new possibilities for addressing increasingly complex economic and social problems Digital enablement refers to the consumerizational and transformational roles of digital technology in driving business and social innovation and has profound multi disciplinary implications Some of these include Facilitating new business models that transform the way firms transact market and engage with customers providing new means of income generation for disadvantaged groups and generating new means of social interaction which empowers employees customers small businesses and entire communities This book introduces readers to case studies of digital enablement in business and society It offers unique insights into the phenomenon from multiple contexts giving readers a nuanced understanding of the roles digital enablement can play **Organizing Entrepreneurship** Anna Grandori,Laura Gaillard Giordani,2011-05-09 Integrating classic and recent insights into the organization economics and management of entrepreneurial activities Organizing Entrepreneurship aims to blend rigor with relevance and connects theory with practical problems Complimented by international case studies and simulations as well as analysis questions this key text is an ideal teaching and learning resource for all entrepreneurship students Entrepreneurship in Context Marco van Gelderen,Enno Masurel,2012-03-15 This book aims to provide an insight into the role of context in the world of entrepreneurship It studies not only narrow and wider contexts but also their interconnectedness their dynamic nature and the actions that entrepreneurs take to involve engage and influence their context **Trading Places--SMEs in the Global Economy** Lester Lloyd-Reason,Leigh Sear,2007-01-01 There are 18 contributions in the book all of whom are very highly regarded in the fields of entrepreneurship and international management the book is well researched and edited The book provides an excellent discussion on the importance of SMEs in the global economy Through a number of different case study examples and discussion of various elements of the internationalization process this book provides an outstanding resource

for the study of SMEs that operate in the international market Vanessa Ratten Journal of International Entrepreneurship This book is most timely It arrives at a time when globalisation and new technologies present major opportunities and challenges to the role of the independent small and medium sized business in economies The book s strength in dealing with many of the emerging issues is underpinned by a truly international range of contributors with a strong mix of practical as well as academic experience From the preface by Allan Gibb Professor Emeritus Durham University UK Lester Lloyd Reason and Leigh Sear bring together leading researchers and thinkers in this critical guide to the ongoing worldwide research shaping the role played by SMEs within today s global economy The expert contributors contend that the past twenty years have seen an explosion in research into international SMEs resulting in a considerable body of academic literature and thinking This research they argue may merely serve to increase our lack of understanding in this area and often results in myths and misconceptions upon which SME policies and support programmes have been developed and introduced They go on to suggest that academic models are often poorly suited to the problems faced by SMEs within the international trading environment In many instances the contributors find SMEs at the vanguard of the challenge to accepted business practices it is these challenges that underpin the text Illustrating that today s SMEs are faced with the critical issue of how to create and maintain a sustainable competitive advantage in light of the increased complexity of international trade and global business linkages this Handbook will prove invaluable to both academics and practitioners involved in business and management and entrepreneurship

Pathways to Systemic Change Heloise Buckland,David Murillo,2017-09-08 The world s social ecological and economic problems are so complex and diverse that there will never be a one size fits all model for social innovation The very nature of social innovation as a new better way of solving social problems means that it is not even in the interest of social innovation advocates to create tidy definitions but rather to create environments that allow for the process of creative destruction with a social purpose to prosper Inspired by a desire to deepen our understanding of the role of social innovation in addressing today s most pressing challenges authors Heloise Buckland and David Murillo explore four inspiring cases and define a new set of variables to help better understand the conditions under which social innovation can be most effective These variables can be helpful for investors governments academic centres foundations and individual entrepreneurs interested in measuring the potential of any given social innovation to bring about the much needed systemic change to solve today s complex challenges This book builds on a track record of research and education in corporate social responsibility and social entrepreneurship at ESADE Business School s Institute of Social Innovation Building on an understanding of the key characteristics and challenges faced by social entrepreneurs here authors undertake a deeper analysis of social innovation

Handbook of Social Media Management Mike Friedrichsen,Wolfgang Mühl-Benninghaus,2013-05-28 Digitization and Web 2 0 have brought about continuous change from traditional media management to new strategic operative and normative management options Social media management is on the agenda of

every media company and requires a new set of specialized expertise on digital products and communication. At the same time, social media has become a vibrant field of research for media economists and media management researchers. In this handbook, international experts present a comprehensive account of the latest developments in social media research and management, consistently linking classical media management with social media. The articles discuss new theoretical approaches as well as empirical findings and applications, yielding an interesting overview of interdisciplinary and international approaches. The book's main sections address forms and content of social media, impact and users management with social media, and a new value chain with social media. The book will serve as a valuable reference work for researchers, students, and professionals working in media and public relations.

[Developing Capacity for Innovation in Complex Systems](#)
Christer Vindeløv-Lidzélius, 2020-09-27

Based on a theoretical analysis and supported by both explorative qualitative and quantitative research, this book examines the many reasons why an initiative becomes an innovation and why some organizations are better at innovation than others. *Developing Capacity for Innovation in Complex Systems* offers insights into the history of the idea of innovation as well as knowledge around different discourses on innovation. The purpose of this book is to help organisations further their aspirations and work with innovation. It is based on three premises: 1 that capacity can be developed, 2 that it is worthwhile trying to do so, and 3 there are however no guarantees for success. Providing a comprehensive view of innovation and discussing the theoretical challenges, the book contributes towards a holistic theory for capacity building for innovation. The book conveys frameworks, methodologies, and tools that are used in terms of innovation, and it explains positive strategies for innovation that are being developed. Complexity theory is presented and attributed to the construct of innovation to further the understanding of the intricacies and fallacies of innovation work. This book will be of direct interest to scholars and subject matter experts in the field of innovation management. Business leaders and reflective practitioners will find the content relevant and accessible.

Eesti ettevõtete uued võimalused - ärimudelid, avatud innovatsioon ja riigi valikud, **Financiación del proceso emprendedor** Jon Hoyos Iruarrizaga, Ana Blanco Mendialdua, 2014-04-03
