

A person wearing a white lab coat and blue nitrile gloves is holding a clear petri dish. Inside the dish is a small, green, branching biological specimen, possibly a plant or microorganism. The background is blurred, showing the person's face and lab coat.

Biology Science Fair Projects for High School Students

High School Biology

Amanda Patterson Smiley

High School Biology :

High-School Biology Today and Tomorrow National Research Council, Division on Earth and Life Studies, Commission on Life Sciences, Committee on High-School Biology Education, 1989-02-01 Biology is where many of science's most exciting and relevant advances are taking place. Yet many students leave school without having learned basic biology principles and few are excited enough to continue in the sciences. Why is biology education failing? How can reform be accomplished? This book presents information and expert views from curriculum developers, teachers, and others offering suggestions about major issues in biology education: what should we teach in biology and how should it be taught? How can we measure results? How should teachers be educated and certified? What obstacles are blocking reform?

Must Know High School Biology Kellie Ploeger Cox, 2019-06-28 Publisher's Note: Products purchased from Third Party sellers are not guaranteed by the publisher for quality, authenticity, or access to any online entitlements included with the product. A UNIQUE NEW APPROACH THAT'S LIKE A LIGHTNING BOLT TO THE BRAIN. You know that moment when you feel as though a lightning bolt has hit you because you finally get something. That's how this book will make you react. We hope. Each chapter makes sure that what you really need to know is clear, right off the bat, and sees to it that you build on this knowledge. Where other books ask you to memorize stuff, we're going to show you the must-know ideas that will guide you toward success in biology. You will start each chapter learning what the must-know ideas behind a biology subject are, and these concepts will help you answer the biology questions that you find in your classwork and on exams. Dive into this book and find 250 practice questions that mirror what you will find in your classwork and on exams. A bonus app with 100 flashcards that will reinforce what you've learned. Extensive examples that drive home essential concepts. An easy access setup that allows you to jump in and out of subjects. Biology topics aligned to national and state education standards. Special help for more challenging biology subjects including photosynthesis and cellular respiration. We're confident that the must-know ideas in this book will have you mastering biology concepts in no time or at least in a reasonable amount of time.

Influence of High School Biology and Mathematic Courses on the Introductory College Biology Course Success at Angelo State University, TX Amanda Patterson Smiley,2013 For students to be adequately informed and prepared to succeed in Science Technology Engineering and Mathematics STEM fields it is important to understand the influence of the number of science and mathematics courses taken in high school on success in introductory biology courses This study examined the significance between the number of mathematics and science courses taken by high school students and success in the Principles of Biology Bio 1480

introductory college biology course offered at Angelo State University ASU in San Angelo TX This study utilized questionnaires and multiple binomial general linear regressions to determine the likelihood of success that existed between the number of high school science and mathematics courses taken and success in the Bio 1480 course sections in the Fall 2012 and Spring 2013 semesters It was determined that overall the number of mathematics and science courses taken by a student in high school does affect success in Bio 1480 however the extent of the effect varied between the fall and spring terms In the fall term it was determined that an increased number of mathematics and science courses taken always decreased a student s likelihood of being unsuccessful In the spring the results varied in which the number of mathematics and biology courses did have an effect while the number of science courses did not The differences in a significant effect between the semesters were also present when examining the number of all science courses with lab time taken in high school The number of biology courses with lab time taken in high school had a significant effect in both the fall and spring semester This trend was also evident when the number of Advanced Placement AP courses taken in high school was examined Having taken AP Calculus had a significant effect on success in the introductory college biology course as well as having taken AP Biology but when examining the total number of AP science courses taken in high school a significant effect was evident in the fall but not in the spring semester
