High Skill Migration and Recession Anna Triandafyllidou, Irina Isaakyan, 2016-04-29 Women migrants are doubly disadvantaged by their sex and outsider status when moving to a new country Highly skilled women are no exception to this rule This book explores the complex relationship between gender and high skill migration with a special focus on the impact of the current economic crisis on highly skilled women migrants in Europe *South-North Migration of EU Citizens in Times of Crisis* Jean-Michel Lafleur, Mikolaj Stanek, 2016-12-08 This open access book looks at the migration of Southern European EU citizens from Portugal Spain Italy Greece who move to Northern European Member States Belgium France Germany United Kingdom in response to the global economic crisis Its objective is twofold First it identifies the scale and nature of this new Southern European emigration and examines these migrants socio economic integration in Northern European destination countries This is achieved through an analysis of the most recent data on flows and profiles of this new labour force using sending country and receiving country databases Second it looks at the politics and policies of immigration both from the perspective of the sending and receiving countries Analysing the policies and debates about these new flows in the home and host countries this book shows how contentious the issue of intra EU mobility has recently become in the context of the crisis when the right for EU citizens to move within the EU had previously not been questioned for decades Overall the strength of this edited volume is that it compiles in a systematic way quantitative and qualitative analysis of these renewed Southern European migration flows and draws the lessons from this changing climate on EU migration Highly-Skilled Migration: Between Settlement and Mobility Agnieszka Weinara, Amanda Klekowski von Koppenfels, 2020-05-27 This open access short reader discusses the emerging patterns of sedentary migration versus mobility of the highly skilled thereby providing a comprehensive overview of the recent literature on highly skilled migration Highly skilled migrations are arguably the only non controversial migrant category in political and public discourse The common perception is that highly skilled migrants are high earners with top educational skills and that they are easy to integrate These perceptions make them a wanted migrant There seems to be however a big divide between the popular perceptions of this migration and its realities uncovered in social research This publication closes this divide by delving deeper in the variety of experiences discourses and realities of highly skilled migrants thereby uncovering the inherent divides between the highly skilled migrants from the North and the South The reader shows that these divides are constructed realities shaped by the state policies and underpinned by social imaginary Written in an accessible language this reader is a perfect read for academics students and policy makers and all those unfamiliar with the topic **The Transformation of Citizenship, Volume 2** Jürgen Mackert, Bryan S.
