

DSM-5-TR[™] Overview

Essential descriptions of DSM-5-TR mental disorders, including symptoms, manifestations, and classifications

NOTE: This guide includes the majority of mental disorders in the DSM-5-TR. "Other specified" and "unspecified" disorders, which do not meet the full criteria for other disorders within a category, and disorders due to another medical condition are omitted.

Almost all conditions listed here include the caveat that the condition (C) is not due to the effects of a substance (except in the case of substance-related disorders) or to another medical condition, (C) is not better explained by the diagnosis of another mental disorder, and (C) causes significant distress and impairment in social, academic, vocational, or other important areas of functioning.

Difficulties are not attributable to an underlying medical condition.
