Its The Mission Not The Mandates Defining The Purpose Of Public Education:

It's the Mission, Not the Mandates Amy Fast,2015-11-17 This book invites a conversation among stakeholders of public education and conveys the need for a common vision for America s public schools Amy Fast argues that we have never had a clear purpose for our schools and that now more than ever educators in America ache for a more inspiring purpose than simply improving results on standardized assessments Fast asserts how focusing on the mission instead of simply the mandates and measures is how real change occurs Until we have a common and transparent purpose that serves to inspire those in the trenches of the work reform in public education will continue to flounder Through the examination of our past and current priorities for American schools Fast uncovers a nobler purpose that will intrinsically move educators as well as students to be inspired in their work In turn it is this inspiration not another silver bullet reform that will lead to meaningful change in society

Living up to Your School Mission Statement Alan C. Jones,2021-11-15 All school districts have written statements of the educational values and goals that members of the school community believe are important and worth pursuing They display these on the front page of all school district public relations packets and on the walls of school and district offices While all segments of the school community enthusiastically embrace the values and goals stated in the documents rarely if ever do they practice these goals and values in classrooms or administrative offices The gap between the educational ideals spoken from auditorium stages and the instructional regimes students experience in classrooms is the result of schools designed to achieve institutional goals accountability standardization and efficiency rather than educational goals thoughtfulness deep knowledge and critically informed citizens This book is aimed at school administrators whose goal is restoring the why of schooling to the organizational structures and instructional routines that currently govern public schooling in this nation

Religious Education from a Critical Realist Perspective Johnny C. Go,2018-12-14 This book examines the possibility and necessity of critical thinking in religious education through the lenses of critical realism and the Christian doctrine of *sensus fidei*

sense of faith Drawing on Bhaskar s original critical realism and data from a survey of over a thousand teachers in the Philippines the author argues for a view of critical thinking based on components of disposition and competence As such critical thinking becomes the expression of a commitment to judgemental rationality and in a Christian religious education is guided by the individual s *sensus fidei* A philosophical and theological discussion of the process of coming to know in the religious domain Religious Education from a Critical Realist Perspective also offers concrete recommendations on how to promote the practice of religious critical thinking in confessional religious education classrooms As such it will appeal to scholars of philosophy theology and pedagogy with interests in religious education and curriculum development

New Frontiers for College Education Jim Gallacher,Fiona Reeve,2018-08-06 The college sector is facing a growing number of new challenges caused by technological change globalisation and the growth of mass higher education New Frontiers for College Education considers the impact these changes have had and explores the developing role of college education in countries throughout the world Whilst analysing the issues associated with providing high quality vocational education and training the book also reflects on the role of colleges in widening access to both further and higher education Drawing together contributions from leading international academics policymakers and practitioners the book explores common themes across these diverse societies as well as some of the key challenges experienced within individual countries It considers the distinctive contributions that colleges can make in responding to these challenges through apprenticeships and other types of vocational education and training Contributors discuss the growing emphasis on creating more integrated systems of tertiary education recognising that colleges and universities are now expected to work more closely together and that these diverse demands can be difficult to reconcile Providing an authoritative and timely analysis of the changing role of colleges in contemporary society this book will be of great interest to academics researchers and postgraduate students in the areas of further and higher education vocational education and training lifelong learning and skills development It should also be essential reading for policymakers as well as practitioners working in colleges and other institutions of higher and further education

The Ideology of Education Kevin B. Smith,2012-02-01 Advocates of market based education reforms including such policies as choice charters vouchers and outright privatization argue that they represent ready solutions to clearly defined problems Critics of market models on the other hand argue that these reforms misperceive the purposes of public education and threaten its democratic ethos This book explores both the promises and pitfalls of market forces their potential to improve the quality of public education and their compatibility with its republican justifications Smith argues that although market models of education are not without utilitarian merit their potential to alter the social democratic purposes of education is seriously underestimated He supports this claim with a series of sophisticated analyses of the key assumptions underlying these models and by examining the normative elements of theory and methodology that can and often do skew empirical policy analysis toward market preferences He concludes that market reforms are not just a ready means to effectively address the problems of public schooling but rather represent a clear attempt to ideologically redefine its ends

Fixing the Fragmented University Joseph C. Burke,2007 A fatal flaw in accountability programs is the fragmented university that leaves academic departments the units most responsible for institutional results out of the performance loop Currently

decentralization fosters a disabling disconnect among societal concerns institutional goals and departmental aims the three links of public accountability How then can the culture of many research universities be transformed from provider driven prestige to public centered engagement The answer is not to end decentralization but to add direction Fixing the Fragmented University brings together a group of national experts in a discussion of different methods for fixing the fragmented university and changing campus culture The book shows how the practice of strategic planning priority budgeting assessment and quality assurance regional accreditation and departmental performance reporting can enable large research universities to set priorities and pursue direction all while preserving the decentralization that drive internal creativity and innovation Written for administrators trustees faculty leaders and students in higher education this book describes an effective research university as one focused on serving public needs rather than courting peer prestige It brings together a group of national experts who present responses from their disciplines toward fixing the fragmented university and assisting it in becoming as devoted to undergraduate education and public engagement as it is to faculty research Policy, Planning, and People Naomi Carmon, Susan S. Fainstein, 2013-05-31 The contributors of Policy Planning and People argue for the promotion of social equity and quality of life by designing and evaluating urban policies and plans Edited by Naomi Carmon and Susan S Fainstein the volume features original essays by leading authorities in the field of urban planning and policy mainly from the United States but also from Canada Hungary Italy and Israel The contributors discuss goal setting and ethics in planning illuminate paradigm shifts make policy recommendations and arrive at best practices for future planning Policy Planning and People includes theoretical as well as practice based essays on a wide range of planning issues housing and neighborhood transportation surveillance and safety the network society regional development and community development Several essays are devoted to disadvantaged and excluded groups such as senior citizens the poor and migrant workers The unifying themes of this volume are the values of equity diversity and democratic participation The contributors discuss and draw conclusions related to the planning process and its outcomes They demonstrate the need to look beyond efficiency to determine who benefits from urban policies and plans Contributors Alberta Andreotti Tridib Banerjee Rachel G Bratt Naomi Carmon Karen Chapple Norman Fainstein Susan Fainstein Eran Feitelson Amnon Frenkel George Galster Penny Gurstein Deborah Howe Norman Krumholz Jonathan Levine Anastasia Loukaitou Sideris Enzo Mingione Kenneth Reardon Izhak Schnell Daniel Shefer Michael Teitz Iv n Tosics Lawrence Vale Martin Wachs **Organizing for School Change** Karen Seashore Louis, 2013-01-11 Improving education is a key priority for governments around the world While many suggestions on how best to achieve this are currently under debate years of academic research have already revealed more about how to encourage change than is sometimes assumed This volume brings together for the first time some of the most significant work of Karen Seashore Louis one of the foremost thinkers and researchers in the field Organizing for School Change presents a unique variety of research based results from studies conducted over the past twenty five years What emerges is

not an idealistic plan but a realistic picture of what needs to be done if schools are to be made better Drawing on a wide and comprehensive list of sources the ideas brought together in this collection will prove invaluable and insightful reading stimulating both newcomers and veterans of the field to consider educational research in new ways

Social Enterprise Law Dana Brakman Reiser, Steven A. Dean, 2017 Social enterprises represent a new kind of venture dedicated to pursuing profits for owners and benefits for society Social Enterprise Law provides tools that will allow them to raise the capital they need to flourish Social Enterprise Law weaves innovation in contract and corporate governance into powerful protections against insiders sacrificing goals such as environmental sustainability in the pursuit of short term profits Creating a stable balance between financial returns and public benefits will allow social entrepreneurs to team up with impact investors that share their vision of a double bottom line Brakman Reiser and Dean show how novel legal technologies can allow social enterprises to access capital markets including unconventional sources such as crowdfunding With its straightforward insights into complex areas of the law the book shows how a social mission can even be shielded from the turbulence of an acquisition or bankruptcy It also shows why as the metrics available to measure the impact of social missions on individuals and communities become more sophisticated such legal innovations will continue to become more robust By providing a comprehensive survey of the U S laws and a bold vision for how legal institutions across the globe could be reformed this book offers new insights and approaches to help social enterprises raise the capital they need to flourish It offers a rich guide for students entrepreneurs investors and practitioners
