Schuler,Jörg Hannemann,Norbert Streitz,2013-11-11 One can observe that a wide range of human activities involves various
forms of design Especially if the goal implies the creation of an artifact design is at the very center of these activities It is the
general understanding in the public to place design especially in the context of for example fashion furniture household items
cars and architecture or in a more general way at the intersection of art and engineering Of course in the field of information
technology developers of software and hardware are called system designers Design can be identified and considered in the
context of many activities related to publishing creating a product ad in a magazine designing the layout of a newspaper
authoring a book Summarizing these examples as creating documents these are activities where two challenges with respect
to design have to be met Designing the content its structure and its relationship to the existing knowledge of potential
readers is one while the other refers to the rhetorical aspects including designing the presentation of the material in order to
communicate the content Publishing is communicating knowledge **Chilton's CCJ.** ,1985 **The Autocar** ,1987
