Quo Vadis, Metaphysics? Mirosław Szatkowski,2019-11-18 The old philosophical discipline of metaphysics after having been pronounced dead by many has enjoyed a significant revival within the last thirty years due to the application of the methods of analytic philosophy One of the major contributors to this revival is the outstanding American metaphysician Peter van Inwagen This volume brings together twenty two scholars who in commemoration of Prof van Inwagen s 75th birthday ponder the future prospects of metaphysics in all the richness to which it has now returned It is only natural that logical and epistemological reflections on the significance of metaphysics sometimes called meta metaphysics play a considerable role in most of these papers The volume is further enriched by an interview with Peter van Inwagen himself

Self, God and Immortality Eugene Fontinell,2018-09-18 Can we who have been touched by the scientific intellectual and experimental

revolutions of modern and contemporary times still believe with and degree of coherence and consistency that we as individual persons are immortal Indeed is there even good cause to hope that we are In examining the present relationship of reason to faith can we find justifying reasons for faith These are the central questions in *Self God and Immortality* a compelling exercise in philosophical theology Drawing upon the works of William James and the principles of American Pragmatism Eugene Fontinell extrapolates carefully from data given in experience to a model of the cosmic process open to the idea that individual identity may survive bodily dissolution Presupposing that the possibility of personal immortality has been established in the first part the second part of the essay is concerned with desirability Here Fontinell shows that far from diverting attention and energies from the crucial tasks confronting us here and now such belief can be energizing and life enhancing The wider importance of *Self God and Immortality* lies in its pressing both immortality believers and terminality believers to explore both the metaphysical presuppositions and the lived consequences of their beliefs It is the author s expressed hope that such explorations rather than impeding will stimulate co operative efforts to create a richer and more humane community
