Lotha And The Three Crosses:

Lotha and the Three Crosses Peter Frickel, 2018-04-25 The author tells the story of Lotha honored by God for building the tomb for His son Jesus Answers to many questions are woven throughout the tale When Lotha offered to carry Jesus cross what did Jesus do for him What happened to the three wooden crosses after the crucifixion of Jesus Christ What became of the massive stone which sealed Jesus tomb The divorce of King Lothar and Queen Theutberga, 2017-01-01 In the mid ninth century Francia was rocked by the first royal divorce scandal of the Middle Ages the attempt by King Lothar II of Lotharingia to rid himself of his queen Theutberga and remarry Even women in their weaving sheds were allegedly gossiping about the lurid accusations made Kings and bishops from neighbouring kingdoms and several popes were gradually drawn into a crisis affecting the fate of an entire kingdom This is the first professionally published translation of a key source for this extraordinary episode Archbishop Hincmar of Rheims s De divortio Lotharii regis et Theutbergae reginae This text offers eye opening insight both on the political wrangling of the time and on early medieval attitudes towards magic penance gender the ordeal marriage sodomy the role of bishops and kingship The translation includes a substantial introduction and annotations putting the case into its early medieval context and explaining Hincmar's sometimes dubious methods of Carolingian Coinage and the Vikings Simon Coupland, 2007 This volume brings together for the first time argument Simon Coupland's series of significant articles on Carolingian coinage The author draws out the economic and political implications of coin types and coin hoards from the reign of Charlemagne to the Edict of P tres in 864 This numismatic survey is complemented by other studies which use the evidence of coinage and contemporary texts to consider aspects of trade and power in the ninth century particularly the impact of the Viking raids The Abacus and the Cross Nancy Marie Brown, 2010-12-07 The medieval Catholic Church widely considered a source of intolerance and inquisitorial fervor was not anti science during the Dark Ages in fact the pope in the year 1000 was the leading mathematician and astronomer of his day Called The Scientist Pope Gerbert of Aurillac rose from peasant beginnings to lead the church By turns a teacher traitor kingmaker and visionary Gerbert is the first Christian known to teach math using the nine Arabic numerals and zero In The Abacus and the Cross Nancy Marie Brown skillfully explores the new learning Gerbert brought to Europe A fascinating narrative of one remarkable math teacher The Abacus and the Cross will captivate readers of history science and religion alike Medieval European Coinage: Volume 14, South Italy, Sicily, Sardinia Philip Grierson, Mark A. S. Blackburn, Lucia Travaini, 1986 The coinage of south Italy Sicily and Sardinia between the tenth century and the reign of Ferdinand the Catholic Diagramming Devotion Jeffrey F. Hamburger, 2020-09-21 During the European Middle Ages diagrams provided a critical tool of analysis in cosmological and theological debates In addition to drawing relationships among diverse areas of human knowledge and experience diagrams themselves generated such knowledge in the first place In Diagramming Devotion Jeffrey F Hamburger examines two monumental works that are diagrammatic to their core a

famous set of picture poems of unrivaled complexity by the Carolingian monk Hrabanus Maurus devoted to the praise of the cross and a virtually unknown commentary on Hrabanus s work composed almost five hundred years later by the Dominican friar Berthold of Nuremberg Berthold's profusely illustrated elaboration of Hrabnus translated his predecessor's poems into a series of almost one hundred diagrams By examining Berthold of Nuremberg's transformation of a Carolingian classic Hamburger brings modern and medieval visual culture into dialogue traces important changes in medieval visual culture and introduces new ways of thinking about diagrams as an enduring visual and conceptual model The Apocalyptic Year 1000 Richard Landes, Andrew Gow, David Van Meter, 2003-06-05 The essays in this book challenge prevailing views on the way in which apocalyptic concerns contributed to larger processes of social change at the first millennium Several basic questions unify the essays What chronological and theological assumptions underlay apocalyptic and millennial speculations around the Year 1000 How broadly disseminated were those speculations Can we speak of a mentality of apocalyptic hopes and anxieties on the eve of the millennium If so how did authorities respond to or even contribute to the formation of this mentality What were the social ramifications of apocalyptic hopes and anxieties and of any efforts to suppress or redirect the more radical impulses that bred them How did contemporaries conceptualize and then historicize the passing of the millennial date of 1000 Including the work of British French German Dutch and American scholars this book will be the definitive resource on this fascinating topic and should at the same time provoke new interest in and debate on the nature and causes of social change in early medieval Europe A World History of Art Hugh Honour, John Fleming, 2005 Over two decades this art historical tour de force has consistently proved the classic introduction to humanity s artistic heritage From our paleolithic past to our digitised present every continent and culture is covered in an articulate and well balanced discussion In this Seventh Edition the text has been revised to embrace developments in archaeology and art historical research while the renowned contemporary art historian Michael Archer has greatly expanded the discussion of the past twenty years providing a new perspective on the latest developments. The insight elegance and fluency that the authors bring to their text are complemented by 1458 superb illustrations half of which are now in colour These images together with the numerous maps and architectural plans have been chosen to represent the most significant chronological regional and individual styles of artistic expression The Hammer and the Cross Robert Ferguson, 2009 Now with the chamber boarded up came what was probably the heart of the proceedings Four or five dogs and two more oxen were slaughtered as well as fifteen horses that had first been run to exhaustion The furniture tools and carriages scattered across the foredeck were bathed in their blood Stones were then piled over the ship breaking many of the grave goods and rendering them unusable The sights and sounds accompanying such an orgy of blood letting we might perhaps be able to imagine the atmosphere conjured by it probably not As the mourners then set about completing the mound the sight before them must have been eerie and awe inspiring the blood spattered ship with its cargo of dead women seeming to lurch forward across

the field in a last attempt to shake off the engulfing wave of dark earth rising behind it The meadow flowers preserved from this stage of the proceedings were autumnal showing that the whole process from the opening of the furrow to the closing of the mound must have taken about four months Clearly at least one of the women had died long before the burial took place
