When I was a baby, less than a year old, I made my first train trip. My parents took me to see my grandparents. I do not remember that trip at all.

So far, I have been to twenty-five American states. I have been to Canada. I have been to Mexico. I have been to Italy, too.

Trains have been around for a long time. The first steam-powered train took one hundred forty-one people on a six-mile trip in 1825! Of course, trains are very different now. They move much faster, for one thing. One of

Actually it is less effective in the era of oral language. For learners without knowing the theory of Reading and strategy make them have to spend much time to read and comprehend a reading text. Comprehending a reading text is not as easy as we thought. Still some problems occur for example vocabulary and grammar. Knowing the weakness of learners ability in English language skills this reading book is designed integrated to other subjects they are speaking pronunciation grammar and vocabulary which can be seen in its exercises and implementation. This book also can be used as self study learning because it provides theory and evaluation in reading. Besides that there is answer key at the back of the book which gives answer or possible answers to some exercises. Glossary is also included with its phonetics description for improving learners pronunciation and finding an explanation of certain words used in this book. So it is really useful for all learners included college students teachers and lecturers who want to deepen their knowledge in Reading. I do believe that this book will give some beneficial impacts to college students teachers and lecturers or anyone who interested in reading matters.
