Guided Study Hall:

Student Resistance to Schooling Kelly Ann Welsh, 2012 *Improving Homework Completion of Students Through Tutored Study Hall* Kori S. Dicken, Carol D. Foreman, Robin L. Jensen, Justin A. Sherwood, 2008 The purpose of this study was to examine the effects of a guided study hall on homework completion Two groups of students were analyzed in their homework completion rates Homework completion rates of the students that participated in Site A were reviewed in their five core subjects while the homework completion rates of the students at Site B were only reviewed in their math classes Site A had 45 students participate in the study Site B had two students in the study both from the same math teacher Results indicate at both sites that a guided study hall helped reduce the rate of homework completion Overall the rate before the study was 8% of homework was not being completed By the completion of the study hall 4% of homework was incomplete Results show that with the guidance of a teacher and the presence of a study hall students are more inclined to get their homework completed and may therefore increase the students understanding Educators should consider study halls to be a beneficial time for students who frequently do not complete their homework and even more beneficial if the teacher assists the students with their homework Twelve appendixes include 1 Student Consent Form 2 Teacher Consent Form 3 Parent Consent Form 4 Research Tracking Log 5 Pre Survey for Parents 6 Pre Survey for Students 7 Homework Log 8 Study Hall Sign In Sheet 9 Student Reflections Form 10 Teacher Researcher Reflections Form 11 Post Survey for Students and 12 Post Survey for Parents Contains 7 figures and 7 tables Master of Arts Action Research Project Saint Xavier University *An Instructor's Guide for Implementing Cooperative Learning in the Equipment Records and Parts Specialist Course* Judith E.
