Gypsy Politics And Traveller Identity:

Gypsy Politics and Traveller Identity Thomas Alan Acton,1997 Relations with the state and with non Gypsies have been central to the shaping of the lived identity of Gypsy people This book examines how the state deals with Gypsies and travellers and how they deal with the state It also provides a comparative study of Gypsy politics in Britain and abroad

Gypsy Politics and Traveller Identity Thomas Alan Acton,1997 *Gypsy and Traveller Ethnicity* Brian A Belton,2004-08-02 The book explores the notion of Gypsy and Traveller ethnicity and provides a critique of the conceptual basis of racial and ethnic categorisation An analysis of the post war housing situation is given in order to illustrate a connection between social and economic conditions legislation affecting gypsies and travellers and the visibility and general consciousness of the gypsy and traveller population The originality of the book lies in its argument that the position of gypsies and travellers largely arises out of social conditions and interaction rather than political biological or ideological determinants It puts forward the notion of an ethnic narrative of traveller identity and illustrates how variations of this have been defensively deployed by some travellers and elaborated on by theorists Belton focuses on the social generation of travellers as a cultural ethnic and racial categorization offering a rational explanation of the development of an itinerant population that is less ambiguous and more informative in terms of the social nature of the gypsy and traveller position than interpretations based on blood breed stock ethnicity or race that dominate the literature Traveller, Nomadic and Migrant Education Patrick Alan Danaher,Máirín Kenny,Judith Remy Leder,2009-04-10 This edited collection explores the challenges and innovations in providing education for mobile communities across the world While obstacles such as negative stereotypes and centuries old prejudice remain problematic the book also shows how educational innovations such as online education and mobile schools are bringing mobility and schooling together **New Directions in Race, Ethnicity and Crime** Coretta Phillips,Colin Webster,2013-10-08 The disproportionate criminalisation and incarceration of particular minority ethnic groups has long been observed though much of the work in criminology has been dominated by a somewhat narrow debate This debate has concerned itself with explaining this disproportionality in terms of structural inequalities and socio economic disadvantage or discriminatory criminal justice processing This book offers an accessible and innovative approach including chapters on anti-Semitism social cohesion in London Bradford and Glasgow as well as an exploration of policing Traveller communities Incorporating current empirical research and new departures in methodology and theory this book also draws on a range of contemporary issues such as policing terrorism immigration detention and youth gangs In offering minority perspectives on race crime and justice and white inmate perspectives from the multicultural prison the book emphasises contrasting and distinctive influences on constructing ethnic identities It will be of interest to students studying courses in ethnicity crime and justice **Counter-Hegemony and the Irish "Other"** Michael Hayes,2009-10-02 This volume hopes to act as a catalyst for some new and exciting areas of enquiry in the more liminal interstices of Irish Studies

Traveller Studies Romani Studies and Diaspora and Migration Studies These disciplines are all relatively new areas of enquiry in modern Ireland a country whose society has witnessed very rapid and wide ranging cultural and demographic change within the short space of a decade The issue of multiculturalism is not one which is particularly new to Irish society as a number of contributors to this volume point out What is new however is an increased acknowledgement of diversity and multiculturalism in Ireland and Europe as a whole Such an acknowledgement makes increased dialogue between mainstream society older minorities such as the Irish Travellers and the many newer immigrant communities such as the Roma all the more necessary For such constructive dialogue to take place it is vital that the voices of Travellers and Roma are listened to and that their distinctive worldview be given due acknowledgement and respect It is hoped that this volume will go some way towards the development of such a process

Ethnicity and Economy S. Fenton,H. Bradley,2002-06-18 The nature of the connection between economic action and structure and ethnic identities receives here a long overdue and incisive re examination The question is addressed theoretically by revisiting the race and class debate and by a wide ranging review of the contexts in which the conjuncture of ethnicity economy is worked out It is also addressed empirically in a series of case studies of ethnically defined groups and their articulation with the economy A combination of established authors and new researchers have made an invaluable contribution to the field

The Globalization of Space John Miller,2015-10-06 The work of Michel Foucault has been influential in the analysis of space in a variety of disciplines most notably in geography and politics This collection of essays is the first to focus on what Foucault termed heterotopias spaces that exhibit multiple layers of meaning and reveal tensions within society

Sites of Protest Stuart Price,Ruth Sanz Sabido,2016-05-18 Sites of Protest examines the global resurgence of protest movements and the ways in which they use public and private space both physical and immaterial to secure attention for a wide variety of causes cultural events and moral campaigns The book takes its readers inside the mindset not only of protestors and activists but also of the state and corporate authorities that attempt to limit the impact of dissent It also explains how media outlets frame the wide variety of international events and controversies that make up modern protest movements and examines the myths that surround activism and the Internet Has the landscape of dissent changed forever or does the fact that protestors still rely on the symbolism associated with a particular place mean that their interventions will remain localised and will fail to create a universal appeal

Sinti and Roma Susan Tebbutt,1998 This collection of essays explores in depth the life of the Sinti and Roma in Germany their representation in German literature and the relationships between the German and Romani languages It gives background to their maltreatment and underlines the fact that the persecution of Gypsies during the Nazi period which until the 1980s had been totally marginalised by historians did not cease in 1945 The continuity of this anti Gypsyism is traced to the present day and the efforts achievements and aspirations of the Sinti and Roma civil rights movement are highlighted

Travellers, Gypsies, Roma Jean Ryan Hakizimana, 2009-10-02 This volume hopes to act as a catalyst for some new and exciting areas of enquiry in the more liminal interstices of Irish Studies Traveller Studies Romani Studies and Diaspora and Migration Studies These disciplines are all relatively new areas of enquiry in modern Ireland a country whose society has witnessed very rapid and wide ranging cultural and demographic change within the short space of a decade The issue of multiculturalism is not one which is particularly new to Irish society as a number of contributors to this volume point out

What is new however is an increased acknowledgement of diversity and multiculturalism in Ireland and Europe as a whole. Such an acknowledgement makes increased dialogue between mainstream society, older minorities such as the Irish Travellers and the many newer immigrant communities such as the Roma all the more necessary. For such constructive dialogue to take place it is vital that migratory peoples and their particular expressions of postcolonial identity be voiced and valued. These identities are both complex and diverse and frequently straddle a number of countries and national identities. It is hoped that this volume will go some way towards the cultivation of such dialogue.

Beyond Binaries in Education Research Warren Midgley, Mark A. Tyler, Patrick Alan Danaher, Alison Mander, 2012-03-28

Beyond Binaries in Education Research explores the ethical, methodological and social justice issues relating to conceptualizations of binary opposites in education research, particularly where one side of the dualism is perceived to be positive and the other negative. In education research these may include ability/disability, academic/vocational, adult/child, formal/informal learning, male/female, research/practice, researcher/participant, sedentary/mobile and West/East. Chapters in this book explore the resilience of binary constructions and present conceptual models for moving beyond them and/or reconceptualizing them to facilitate more productive approaches to education provision. With contributors from authors working in a multitude of educational fields and countries, this book provides a significant contribution to the ongoing challenge to seek new ways to move beyond binaries in education research.
