The Eclipse of Liberal Protestantism in the Netherlands Tom-Eric Krijger, 2019-09-16 In The Eclipse of Liberal Protestantism in the Netherlands Tom Eric Krijger is the first to offer a synthesis of the development of the Protestant modernist movement in Dutch religious social cultural and political life between 1870 and 1940 In historiography the liberal Protestant community is said to have lost appeal and influence in these decades due to a lack of theological clarity inner harmony and organisation Analysing liberal Protestants self perception vis vis Christian orthodoxy self understanding as a faith community attitude towards other alternatives to orthodoxy class consciousness literary criticism political commitment and involvement with foreign mission Krijger challenges this view Making an international comparison he argues that the Dutch modernist movement failed to make headway primarily due to liberal Protestant expectations and discourse The British Library General Catalogue of Printed Books to 1975 British Library, 1984 **Catalog of the Theatre and Drama Collections: Theatre Collection: books on the theatre. 9 v** New York Public Library.
