High School Problems Classic Reprint:

The High School Problem (Classic Reprint) Francis Bail Pearson, 2015-07-06 Excerpt from *The High School Problem* It must be evident to all thoughtful persons that the high school stands upon the threshold of a larger career of effectiveness The utterances in favor of socializing and vitalizing high school work are prophetic The changing conditions of life both social and economic seem to call for a readjustment in our high school procedure This call will be more insistent as time goes on and the school which fails to heed the call will find itself relegated to a position of subordinate importance as a determining factor in social and economic affairs Conceding to the utmost the influence of colleges of education and normal schools in the way of inculcating better methods of teaching there still remains much for high school teachers themselves to do in the way of taking a generous survey of their work so as to give direction and potency to civilization Tradition alone will not avail The high school should lead not follow but this high function will not be attained until it can preview civilization and prepare the way This privilege appertains to each individual teacher nor can this function be either abrogated or delegated About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Adolescence and High-School Problems (Classic Reprint) Ralph W. Pringle, 2015-07-10 Excerpt from *Adolescence and High School Problems* It would seem that both the new psychology and the new sociology teach us that while giving attention to the future of our high school pupils we should not neglect their present interests and needs and that the only way to give them training in general social efficiency is through specific concrete practice It is hoped that there is always manifest in these discussions democratic respect for the individual to miss this would be to lose sight of one of the most significant teachings of the psychology of adolescence The reader will find each chapter complete in itself but there has been a serious attempt to secure a real unity throughout the book This unity it is hoped is brought about by the maintenance of the viewpoint already described It must be admitted that the one who at present publishes anything on certain phases of secondary education is guilty of considerable temerity Educational ideals are ever changing but the present is understood by all students of education to be a period profoundly transitional The social and economic unrest of the years immediately preceding the great war together with many other causes greatly disturbed the educational thinking of the country and occasionally the practice and the war with its exposures and consequences has still further troubled the educational waters Moreover it is in the field of secondary education especially that new policies are manifest and a fundamental reorganization is already in progress If we are to judge by the utterances of the more advanced thinkers the high school curriculum is little

more than a flux and many of the traditional methods are either being seriously questioned or wholly rejected About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The American Secondary School and Some of Its Problems (Classic Reprint) Julius

Sachs, 2015-06-30 Excerpt from The American Secondary School and Some of Its Problems There are educational questions involving so large an area of interest that they defy treatment at the hand of an individual a mere enumeration of the problems that attach themselves to our secondary schools would suffice to indicate the unwisdom of such an attempt On individual questions and groups of questions thoughtful men and women have concentrated their efforts to combine their contributions to the various phases of the subject under wise editorial control into a consistent whole to create a thesaurus of sound opinion on what the secondary school has been is and should be seems the only way of reaching an agreement on the rational conduct of our middle schools The cooperative idea seems peculiarly appropriate to this need of our educational scheme As for the present treatise its title speaks for itself It has been realized by the author that it is wiser to concentrate attention upon some of the problems of the secondary school and indicate their significance rather fully than to compass all or even a majority of the questions that attach themselves to our system of middle schools About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The High School Boy and His Problems (Classic Reprint) Thomas Arkle Clark, 2018-05-06 Excerpt from The High School Boy and His Problems I can not remember a time since I have been grown when I did not know intimately boys of high school age and in high school and when I did not like to sit down and talk to them One group of boys only a few years ago I had almost daily contact with from the time they entered high school until they graduated from college As a college executive I meet personally every autumn hundreds of boys fresh from the training of the high school and revealing almost at once what they have gained and what they have missed It is this intimate contact with so many thousands of high school boys that has induced me to write the papers contained in this little book Morals and Manners was read before a meeting of the North Central Academic Association Going to College was given as a Commencement address to the boys of the University School

The American High School (Classic Reprint) John Franklin Brown, 2018-01-16 Excerpt from The American High School The problems of the American high school are specific They differ much from those of the elementary school below and those of the college university or technical school above The experience of the last half century has revealed them it has also developed a considerable body of knowledge concerning them which every high school teacher should possess before entering upon his work This knowledge will not solve all his individual problems but it should at least make him aware of their existence and suggest the solution which he must himself work out About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Farm and School Problems for High Schools and Normals (Classic Reprint) Henry Louis Goll, 2017-09-17 Excerpt from Farm and School Problems for High Schools and Normals The introduction of Agriculture in the public schools of many states in recent years has aroused a considerable discussion relative to the purpose scope materials and methods in teaching this important branch of education About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Problems in State High School Finance (Classic Reprint) Julian Edward Butterworth, 2015-07-26 Excerpt from Problems in State High School Finance We need a philosophy of education finance School support is in a chaotic state We have no clearly defined principles governing such problems as these the proportion of all civic expenditures that should be used for schools the distribution of funds among city and rural schools among elementary and high schools among general and practical courses the place of the state county and district in raising funds

the control of these funds methods of apportioning them While a few conceptions have been accepted as fundamental and have been observed rather generally in practice a study of existing conditions justifies the conclusion that all too frequently each school finance problem has been solved as it arose with little or no regard to its relation with other problems Obviously a set of governing principles in this field can come only from a careful study of the many details involved Several studies made during the last few years have contributed their share The author hopes that the present volume may likewise do its part To those who have undertaken similar studies no apology need be made for such inadequacies as exist These may be overcome in time as our methods of collecting and tabulating school statistics are refined The author has tried to point out plainly these inadequacies in order that they may be properly evaluated by the reader and so be made the basis for constructive criticism About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
