**High Strangeness** Linda Moulton Howe, 1998 This book would be a remarkable achievement in any field In this one it is a wonder authors Denise Breton and Christopher Largent *The Paradigm Conspiracy* 44 Bill Brooks, Joanna Summerscales, 2016-05 Bill Brooks was always a bit of an outsider he just didn't fit in and now he thinks he knows why Bill is a former British soldier an ordinary man that is until the age of 44 when suddenly all hell broke loose He didn't realise he had amnesia until he experienced what he calls a download of information revealing a lifetime of UFO abductions and covert military experimentation on him His compelling story shatters some of the widely held beliefs concerning our place in Creation and the true nature of what we think of as our reality It is an expedition into high strangeness with some disturbing aspects as well as the triumph of the human spirit over an evil which seems almost impossible to understand In order to lift the veils of secrecy surrounding the UFO ET enigma post amnesia Bill takes us on a journey through his early childhood and encounters with Nordics Reptilians shadow entities and Grey aliens We then move into his army years where events continue with a military association and Bill is put through MKUltra type mind control programming Along the way he is pursued and persecuted by elements of the Freemasons who murder his cousin A disturbing strange and paranormal scenario brings him into contact with the infamous serial killers Rosemary and Fred West when he finds he bears at one point in his life an uncanny resemblance to Fred with consequences he could never have imagined For all its high strangeness Bill's story is told with a raw humour earthiness and honesty It represents his attempt to reassemble the extraordinary jigsaw puzzle that is his life It has also taken him to the brink of

death several times So sit back and buckle yourself in because you re in for an interesting ride **READER DISCRETION** WARNING There are elements of this story that you may find extremely distressing Please be aware this book is not for the faint hearted **The Abduction Enigma** Kevin D. Mack,1997-09-10 THE PROVOCATIVE BESTSELLER THE MOST RIVETING ACCOUNT EVER PUBLISHED ON ALIEN ABDUCTION PULITZER PRIZE WINNER John E Mack M D Fascinating suggestive and even inspiring The New York Times Book Review A TRANSCENDENT LANDMARK WORK An extraordinarily rich and strange mind expanding book Boston Herald When respected Harvard psychiatrist John E Mack M D first published these astonishing results of four years of intensive research and investigation into alien abduction he unleashed a firestorm of controversy Now in this paperback edition Mack answers his critics both believers and skeptics Mack focuses on thirteen ordinary Americans from nearly one

hundred case studies who tell dramatic inspiring and remarkably similar stories repeated visits from large eyed beings mysterious machines telepathy invasive medical procedures hours missing from their lives and startling messages about the future Provocative This book is a challenge to any reader It raises questions about how we live on this planet and with each other that the Western mind and culture will not be able to ignore for too much longer It also raises questions about the nature of reality of time space energy and the true nature of humanness It opens the door to a very serious redefinition of life as we know it Los Angeles Times Book Review Strange and disturbing Something is powering this rash of abduction claims making it worth the kind of serious investigation Mack presents here San Francisco Chronicle A groundbreaking study Credible and thought provoking Publishers Weekly A FEATURED SELECTION OF THE LITERARY GUILD     **Alien Abduction** James Bouck, Robert Long, 2020-06-28 Alien Abduction Imagine getting into your car and driving to a place you know But for some reason you end up at an unintended location You see something unusual Then you forget all about it An hour or so passes And now you don't remember any of it There's a control factor in abduction cases that allows aliens to abduct any human or control any nonhuman object from any location in the world without human permission or knowledge for purposes unknown Then victims are returned to Earth without memory of the experience Discover what science is learning about the alien presence and the way they manipulate space and time Learn the facts about implants mind control memory and why aliens are here Find out why some can see UFOs and some can't what a typical abduction scenario is like and what you can do to prevent being taken Foreword by Kathleen Marden UFO investigator and niece of Betty and Barney Hill the first recorded abductees     *Terrestrial Trespassers* Philip Kinsella, 2023-04-28 What are the Greys Why are they here and furthermore what are their intentions Why is it that after decades of alien abduction and UFO research we are no nearer in truly establishing what we may be up against regarding this omnipresent force which seemingly operates beyond our level of reality and hides within the shadows like phantoms in the night Author and UFO researcher Philip Kinsella takes a candid look at the phenomenon along with other areas of high strangeness in his search for the clues which may answer some truly extraordinary claims The phenomenon appears to mirror additional bizarre supernatural occurrences across the world and most notably the appearance of terrifying cryptids which have been recounted within the national forests of America and beyond Lights smells and a change in the environment indicates the onslaught of such beings appearing from deep within the shadows only then to dissipate as though they'd never existed at all Are there connections to be made concerning UFOs and other strange monsters reported Since Philip's own alien abduction back in the winter of 1989 along with the appearance of UFOs at close range and which have also been documented he has been driven like many others to find the truth of what may be behind these alien intrusions and has highlighted several theories surrounding the big question of the Greys themselves His speculation emphasises a better understanding of multidimensional levels of consciousness and our need to look outside the box of rational thinking which science continually denies within the advent of such strange

singularities New theoretical models need to come into the equation if we are to make any progress in our search of not only UFOs and aliens but what we as a human species ultimately represents      **Alien Abduction Phenomenon** John Mack, 1999-04-01      **From Other Worlds** Hilary Evans, 1998 Records accounts of humans being abducted by alien life forms and discusses other paranormal phenomena such as ghosts extrasensory perception and possessions by evil spirits
