Classical Music In America Joseph Horowitz, 2005-03-15 Classical Music in America is a pioneering history by an award winning scholar and leading authority on American symphonic culture Joseph Horowitz argues that classical music in the United States is peculiarly performance driven and he traces a musical trajectory rising to its peak at the close of the nineteenth century and receding after World War I He defines the decades of ascendancy as the quest for an American compositional voice painting vivid vignettes of America's most celebrated performers and such pathbreaking institutions as the New York Philharmonic and the Metropolitan Opera He explores a century of decline characterized by illustrious orchestras conductors and virtuosos mostly foreign born and in a final chapter he exposes a crisis of leadership and suggests new musical directions in our postmodern age As with his acclaimed cultural histories Horowitz here fashions a sweeping narrative backed with personality and incident textured by literature sociology and intellectual history that freshly illuminates the American experience 32 pages of illustrations [The Oxford Critical and Cultural History of Modernist Magazines](#) Peter Brooker, Andrew Thacker, 2009-03-26 The first of three volumes charting the history of the Modernist Magazine in Britain North America and Europe this collection offers the first comprehensive study of the wide and varied range of little magazines which were so instrumental in introducing the new writing and ideas that came to constitute literary and artistic modernism in the UK and Ireland In thirty seven chapters covering over eighty magazines expert contributors investigate the inner dynamics and economic and intellectual conditions that governed the life of these fugitive but vibrant publications We learn of the role of editors and sponsors the relation of the arts to contemporary philosophy and politics the effects of war and economic depression and of the survival in hard times of radical ideas and a belief in innovation The chapters are arranged according to historical themes with accompanying contextual introductions and include studies of the New Age Blast the Egoist and the Criterion New Writing New Verse and Scrutiny as well as of lesser known magazines such as the Evergreen Coterie the Bermondsey Book the Mask Welsh Review the Modern Scot and the Bell To return to the pages of these magazines returns us a world where the material constraints of costs and anxieties over censorship and declining readerships ran alongside the excitement of a new poem or manifesto This collection therefore confirms the value of magazine culture to the field of modernist studies it provides a rich and hitherto under examined resource which both brings to light the debate and dialogue out of which modernism evolved and helps us recover the vitality and potential of that earlier discussion [Selling Culture](#) Richard Malin Ohmann, 1996 Surveys the new practices of

advertising mass distribution of goods and the birth of the inexpensive mass audience magazine at the end of the 19th century and their role in the creation of the American professional managerial class Focuses on magazine publishing careers of key personalities in the publishing world and the role of fiction in the magazines For students and general readers
