Philip Mark Plotch,Jen Nelles,2023-05-16 The Port Authority of New York and New Jersey has morphed in ways that would be unrecognizable to its founders Its mission evolved from improving rail freight to building motor vehicle crossings airports office towers and industrial parks and taking control of a failing commuter rail line In its early years the agency was often viewed with admiration however as it drew up plans negotiated to take control of airfields and marine terminals and constructed large bridges and tunnels the Port Authority became the object of less favorable attention It was attacked as a super government that must be reined in while the mayors of New York and Newark argued that it should be broken up with its pieces given to local governments for their own use Despite its criticisms and travails for over half a century the Port Authority overcame hurdles that had frustrated other public and private efforts built the world's longest suspension bridge and took a leading role in creating an organization to reduce traffic delays in the New York New Jersey region How did the Port Authority achieve these successes And what lessons does its history offer to other cities and regions in the United States and beyond In a time when public agencies are often condemned as inefficient and corrupt this history should provide some positive lessons for governmental officials and social reformers In 2021 the Port Authority marked its 100th birthday Its history reveals a struggle between the public and private sectors the challenges of balancing democratic accountability and efficiency and the tension between regional and local needs From selected Port Authority successes and failures Philip Mark Plotch and Jen Nelles produce a significant and engaging account of a powerful governmental entity that offers durable lessons on collaboration leadership and the challenge of overcoming complex political challenges in modern America *The*

Columbia History of the 20th Century Richard W. Bulliet, 1998 In the parade of highlights with which many have tried to sum up the twentieth century the overarching patterns and fundamental transformations often fail to come into focus The Columbia History of the 20th Century however is much more than a chronicle of the previous century's front page news Instead the book is a series of twenty three linked interpretive essays on the most significant developments in modern times ranging from athletics to art the economy to the environment Rather than presenting a linear narrative each author uncovers patterns of worldwide change James Mayall for example writes on nationalism from the rise of European fascism to the rise of Asian and African nations Sheila Fitzpatrick traces the history of communism and socialism in Moscow and Havana In her chapter on women and gender Rosalind Rosenberg covers the progress of women's rights throughout the world from Middle Eastern activism to the American feminist movement Jean Marc Ran Oppenheim's history of sports traces the spread of Western sports to all corners of the globe and the West's appropriation of such activities as martial arts In each the important strands of history events ideas leading figures issues come together to offer an illuminating look at cultural connection diffusion and conflict showing in stark relief how this period has been unlike any preceding era of human history

American Dictators Steven Hart, 2013-10-25 One man was tongue tied and awkward around women in many ways a mama's boy at heart although his reputation for thuggery was well earned The other was a playboy full of easy charm and ready jokes his appetite for high living a matter of public record One man tolerated gangsters and bootleggers as long as they paid their dues to his organization The other was effectively a gangster himself so crooked that he hosted a national gathering of America's most ruthless killers One man never drank alcohol The other from all evidence seldom drank anything else American Dictators is the dual biography of two of America's greatest political bosses Frank Hague and Enoch Nucky Johnson Packed with compelling information and written in an informal sometimes humorous style the book shows Hague and Johnson at the peak of their power and the strength of their political machines during the years of Prohibition and the Great Depression Steven Hart compares how both men used their influence to benefit and punish the local citizenry amass huge personal fortunes and sometimes collaborate to trounce their enemies Similar in their ruthlessness both men were very different in appearance and temperament Hague the mayor of Jersey City intimidated presidents and wielded unchallenged power for three decades He never drank and was happily married to his wife for decades He also allowed gangsters to run bootlegging and illegal gambling operations as long as they paid protection money Johnson the political boss of Atlantic City and the inspiration for the hit HBO series Boardwalk Empire presided over corruption as well but for a shorter period of time He was notorious for his decadent lifestyle Essentially a gangster himself Johnson hosted the infamous Atlantic City conference that fostered the growth of organized crime Both Hague and Johnson shrewdly integrated otherwise disenfranchised groups into their machines and gave them a stake in political power Yet each failed to adapt to changing demographics and circumstances In American Dictators Hart paints a balanced portrait of their accomplishments and their
