Himalaya The Exploration And Conquest Of The Greatest Mountains On Earth:

Himalaya Philip Parker, 2012-11-30 At some 1500 miles long and 250 miles at its widest the Himalaya range is home to the fourteen greatest mountain peaks on the planet each of which towers over 8 000 metres Celebrated by the region's early ancient kingdoms many of these peaks remain sacred in both the Hindu and Buddhist religions and have additionally inspired western explorers and adventurers for some 300 years Himalaya examines the geographical origins of the region its earliest peoples and the onward western discovery and exploration commencing with the Jesuits progressing through myriad nineteenth century gentlemen surveyors culminating in Edmund Hilary and Tensing Norgay's ascent of Everest in 1953 and continuing to the present day with extreme mountaineers and adventure tourists However the book does not solely deal with the attempts to summit the majestic Everest Its broader brief and chronological structure allows the inclusion of narrative and journal extracts from the equally heroic pioneering ascents of Himalayan peaks including K2 1954 Nanga Parbat 1953 Annapurna 1950 Kangchenjunga 1955 and Lhotse 1956 as well as subsequent new frontiers peaks routes and mountaineering techniques The volume includes specially commissioned pieces where legendary climbers reflect on their intrepid experiences and heroism on the highest mountains on earth These accounts are set beside stunning commissioned cartography historical photographs newly shot stills of ephemera and artifacts as well as the most recent Himalayan work from some of the world's leading adventure photographers

The Hunt for Mount Everest Craig Storti, 2021-10-05 This book would be enjoyed by those seeking knowledge of Everest beyond the climbing narratives as well as those who appreciate the details of navigation and exploration Booklist The height of Mt Everest was first measured in 1850 but the closest any westerner got to Everest during the next 71 years until 1921 was 40 miles The Hunt for Mt Everest tells the story of the 71 year quest to find the world's highest mountain It's a tale of high drama of larger than life characters George Everest Francis Younghusband George Mallory Lord Curzon Edward Whymper and a few quiet heroes Alexander Kellas the 13th Dalai Lama Charles Bell A story that traverses the Alps the Himalayas Nepal and Tibet the British Empire especially British India and the Raj the Anglo Russian rivalry known as The Great Game the disastrous First Afghan War and the phenomenal Survey of India it is far bigger than simply the tallest mountain in the world Encountering spies war political intrigues and hundreds of mules camels bullocks yaks and two zebrules Craig Storti uncovers the fascinating and still largely overlooked saga of all that led up to that moment in late June of 1921 when two English climbers George Mallory and Guy Bullock became the first westerners and almost certainly the first human beings to set foot on Mt Everest and thereby claimed the last remaining major prize in the history of exploration With 2021 bringing the 100th anniversary of that year most Everest chronicles have dealt with the climbing history of the mountain with all that happened after 1921 The Hunt for Mt Everest is the seldom told story of all that happened before

The Eastern Land and the Western Heaven Fan Zhang, 2023-12-22 This book sheds light on the structure of a unity with diversity developed in the Qing imperial formation

1636 1912 by a case study of the Qing Tibetan encounters in the eighteenth century By analyzing historical and ethnographical materials the book investigates the translation of Chinese histories and stone inscriptions into Tibetan the transformation of the landscapes at Mount Wutai and Lhasa and the transplantation of Chinese deities and medical practices to Tibet It demonstrates the processes in which the cosmopolitan interlocutors reified imperial integrity while expressing their diverse longings and belongings It concludes that the Qing s rule over its cultural others was neither simply Sinicizing nor colonizing but a translational process in which multivocalic actors shared narratives landscapes and practices while the emperor and tantric masters performed cosmic power over humans and metahumans This book cuts across the fields of anthropology history Chinese Studies and Tibetan Studies It reflects on the concepts of sovereignty and ethnicity and it also extends the methodological horizon of historical anthropology

Mountain Guru Catherine Moorehead,2023-10-05 Winner of the Kekoo Naoroji Award Doug Scott was a legend among mountaineers His expeditions undertaken over a period of five decades are unparalleled achievements This book describes the extraordinary drama of them all from the Himalaya to New Zealand Patagonia Yosemite and Alaska It includes his famous epic on The Ogre one of the hardest peaks in the world to climb his ascent of Kangchenjunga without supplementary oxygen and his ascent with Dougal Haston of Everest in 1975 Catherine Moorehead also uncovers the elusive man behind the obsessive mountaineer From his rumbustious youth in Nottingham through two tempestuous marriages to a secure third marriage she shows how Scott matured in thought and action as his formidable global reputation increased In doing so she reveals him to be a clash of opposites an infuriating monomaniac who took extraordinary risks yet who developed a deep interest in Buddhism and inspired widespread affection Scott spent almost as long as his climbing career in founding and developing Community Action Nepal providing schools and health posts in remote parts of Nepal where he is still much revered Doug Scott died in 2020

Caring for Glaciers Karine Gagné,2019-02-05 Regional geopolitical processes have turned the Himalayan region of Ladakh in northwest India into a strategic border area with an increasing military presence that has decentered the traditional agropastoralist economy This in turn has led to social fragmentation the growing isolation of elders and ethical dilemmas for those who strive to maintain traditional subsistence activities Simultaneously climate change is causing glaciers a vital source of life in the region to recede which elders perceive as the consequence of a broken bond with the natural environment and the deities that inhabit the landscape *Caring for Glaciers* looks at the causes and consequences of ongoing social and cultural change in peoples relationship with the natural environment It illuminates how relations of reciprocity learned through everyday life and work in the mountains with the animals glaciers and deities that form Ladakh s sacred geography shape and nurture an ethics of care Integrating contemporary studies of affect landscape and multispecies anthropology *Caring for Glaciers* contributes to the anthropology of ethics by examining the moral order that develops through the embodied experience of life and work in the Himalayas
