Facebook and Conversation Analysis Matteo Farina, 2018-05-17 Facebook and Conversation Analysis investigates the structure and organization of comments on a major social media platform Facebook using applied conversation analysis methods Providing previously undocumented insights into the structure of comment threads this book demonstrates that they have a meaningful organization rather than casually following one another Although normally used to explore the structure of spoken conversations in recent years conversation analysis approaches have been successfully applied to examine online interactions on Twitter discussion forums and email exchanges By turning this approach towards Facebook comments Matteo Farina provides clear and important insights into the organization of this type of social interaction Supported by a large sample of data with findings based on a corpus of 213 comment threads with over 1 200 comments exchanged by 266 contributors this book makes an important contribution to our understanding of the way people communicate on Facebook

The Social Classroom: Integrating Social Network Use in Education Mallia, Gorg, 2013-12-31 As technology is being integrated into educational processes teachers are searching for new ways to enhance student motivation and learning Through shared experiences and the results of empirical research educators can ease social networking sites into instructional usage The Social Classroom Integrating Social Network Use in Education collates different viewpoints on how social networking sites can be integrated in education Highlighting both formal and informal uses of social interaction tools as learning tools this book will be very useful to all educators trainers and academic researchers in all aspects of education looking for a theoretical practical approach to resourceful teaching *Social Media and Networking: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources, 2015-07-31 In the digital era users from around the world are constantly connected over a global network where they have the ability to connect share and collaborate like never before To make the most of this new environment researchers and software developers must understand users needs and expectations Social Media and Networking Concepts Methodologies Tools and Applications explores the burgeoning global community made possible by Web 2 0 technologies and a universal interconnected society With four volumes of chapters related to digital media online engagement and virtual environments this multi volume reference is an essential source for software developers web designers researchers students and IT specialists interested in the growing field of digital media and engagement This four volume reference includes various chapters covering topics related to Web 2 0 e governance social media activism internet privacy digital and virtual communities e business customer relationship management and more **Contested Languages** Marco Tamburelli, Mauro Tosco, 2021-01-21 This is the first volume entirely dedicated to contested languages While generally listed in international language atlases contested languages usually fall through the cracks of research excluded from the literature on minority languages and treated as mere ensembles of geographically defined varieties by traditional dialectology This volume investigates the nature of contested

languages the role language ideologies play in the perception of these languages the contribution of academic discourse to the formation and perpetuation of language contestedness and the damage contestedness causes to linguistic communities and ultimately to linguistic diversity Various situations and degrees of language contestedness are presented and analysed along with theoretical considerations exploring potential roads to recognition and issues in language planning that arise from language contestedness Addressing the language vs dialect question head on the volume opens up new perspectives that are relevant to all students and researchers interested in the maintenance of linguistic diversity Settler Garrison Jodi Kim,2022-04-07 In Settler Garrison Jodi Kim theorizes how the United States extends its sovereignty across Asia and the Pacific in the post World War II era through a militarist settler imperialism that is leveraged on debt as a manifold economic and cultural relation undergirded by asymmetries of power Kim demonstrates that despite being the largest debtor nation in the world the United States positions itself as an imperial creditor that imposes financial and affective indebtedness alongside a disciplinary payback temporality even as it evades repayment of its own debts This debt imperialism is violently reproduced in juridically ambiguous spaces Kim calls the settler garrison a colonial archipelago of distinct yet linked military camptowns bases POW camps and unincorporated territories situated across the Pacific from South Korea to Okinawa to Guam Kim reveals this process through an analysis of how a wide array of transpacific cultural productions creates antimilitarist and decolonial imaginaries that diagnose US militarist settler imperialism while envisioning alternatives to it

Antisemitism in Reader Comments Matthias J. Becker,2021-04-28 This book examines the most frequent form of Jew hatred Israel related antisemitism After defining this hate ideology in its various manifestations and the role the internet plays in it the author explores the question of how Israel related antisemitism is communicated and understood through the language used by readers in below the line comments Drawing on a corpus of over 6 000 comments from traditionally left wing news outlets The Guardian and Die Zeit the author examines both implicit and explicit comparisons made between modern day Israel and both colonial Britain and Nazi Germany His analyses are placed within the context of resurgent neo nationalism in both countries and it is argued that these instances of antisemitism perform a multi faceted role in absolving guilt re writing history and reinforcing in group status This book will be of interest not only to linguistics scholars but also to academics in fields such as internet studies Jewish studies hate speech and antisemitism Spectacle Lauren Goodwin Slaughter,2022-05-03 In Spectacle poet Lauren Goodwin Slaughter deepens her commitment to the enduring and eternal subjects of womanhood motherhood and family and deftly considers how those devotions intersect in ways joyful mysterious and cruel within personal and political landscapes Sissi's World Maura E. Hametz,Heidi Schlipphacke,2018-07-12 Sissi s World offers a transdisciplinary approach to the study of the Habsburg Empress Elisabeth of Austria It investigates the myths legends and representations across literature art film and other media of one of the most popular revered and misunderstood female figures in European cultural history Sissi s World explores the cultural foundations for the endurance of the Sissi

legends and the continuing fascination with the beautiful empress a Bavarian duchess born in 1837 the longest serving Austrian empress and the queen of Hungary who died in 1898 at the hands of a crazed anarchist Despite the continuing fascination with the beloved Sissi the Habsburg empress her impact and legacy have received scant attention from scholars This collection will go beyond the popular biographical accounts recountings of her mythic beauty and scattered studies of her well known eccentricities to offer transdisciplinary cultural perspectives across art film fashion history literature and media

Online Hate Speech in the European Union Stavros Assimakopoulos, Fabienne H. Baider, Sharon Millar, 2017-12-20 This book is open access under a CC BY 4.0 license and reports on research carried out as part of the European Union co-funded C O N T A C T project which targeted hate speech and hate crime across a number of EU member states It showcases the bearing that discourse analytic research can have on our understanding of this phenomenon that is a growing global cause for concern Although hate speech is often incorporated in legal and policy documents there is no universally accepted definition which in itself warrants research into how hatred is both expressed and perceived The research project synthesises discourse analytic and corpus linguistics techniques and presents its key findings here The focus is especially on online comments posted in reaction to news items that could trigger discrimination as well as on the folk perception of online hate speech as revealed through semi structured interviews with young individuals across the various partner countries

Gender and Tourism Marco Valeri, Vicky Katsoni, 2021-09-13 *Gender and Tourism Challenges and Entrepreneurial Opportunities* provides a comprehensive collection of new insights for traditional paradigms approaches and methods as well as exploring more recent developments in research methodology in the context of gender and tourism studies

Recognition in the Age of Social Media Bruno Campanella, 2023-10-30 The desire to be recognized is a basic human trait In contemporary society social media platforms play a key role in defining how processes of recognition take shape To post to like or to comment have become daily practices of expressing individual recognition On the one hand social media platforms make it easier for individuals to be visible and to be recognized on the other hand they control the structure of these dynamics This timely and original book reflects on processes of recognition on social media platforms Revisiting traditional discussions on recognition theory Bruno Campanella investigates how the field of media and communication has used the concept and poses new questions raised by the omnipresence of social media He argues that existing work does not fully explore the impact of platforms on contemporary processes of recognition Individuals must learn new skills to make themselves visible online but how to achieve this changes as a consequence of the role played by platforms what is seen depends on decisions taken by their algorithms which impacts how individuals and social groups are valued in society *Recognition in the Age of Social Media* is a key contribution to the field and a must read for students and scholars of media and communication sociology and politics

On Making a Shift in the Study of Religion and Other Essays Russell T. McCutcheon, 2021-06-08 Although many would today argue that the onetime dominance of the phenomenology of religion has

receded and with it the traditional approach to studying religion as a unique and deeply felt experience that defies explanation the essays collected here take quite the opposite stand that this approach has merely been re branded and continues to characterize much work being done in the field today Offering a different way forward one that is based on experiences gained by the members of the Department of Religious Studies at the University of Alabama a program that has successfully reinvented itself over the past 20 years the book includes a variety of practical suggestions for how members of Religious Studies departments can revise their approach to studying and teaching about religion Seeing religion instead as mundane but always exemplary of basic social elements found all across cultures the volume argues that the way forward for this field lies not in the specialness of its object of study but instead the fact that thinking and acting as if something is special is itself an ordinary aspect of history and culture Making just this shift helps the scholar of religion to contribute to wide interdisciplinary conversations all across the Humanities and Social Sciences demonstrating the practical relevance of their work

In Plenty and in Time of Need Lia T. Bascomb, 2019-12-13 In In Plenty and in Time of Need demonstrates how the unique history of Barbados has contributed to complex relations of national gendered and sexual identities and how these identities are represented and interpreted on a global stage As the most widespread manifestation of social commentary the book uses music and performance to analyze the competing ideals and realities of the national culture It details the histories of prominent musical artists including the prolific Pan Africanist calypsonian the Mighty Gabby the world renowned Merrymen Soca Queen Alison Hinds artist activist Rupee and international superstar Rihanna Using these artists the project analyzes how femininity masculinity and sexuality are put in service of Barbadian nationalism By examining websites blogs and digital products of these artists in conversation with Barbadian tourism the book re examines the ways in which commodity sexuality gender performance and diasporic consciousness undergird individual careers and national representations

Media, Sustainability and Everyday Life Geoffrey Craig, 2019-04-04 This book analyses representations of sustainable everyday life across advertising eco reality television newspapers magazines and social media It foregrounds the discursive and networked basis of sustainability and

demonstrates how such media representations connect the home and local community to broader political social and economic contexts The book shows how green lifestyle media negotiate issues of sustainability in varying ways reproducing the logic of existing consumer society while also sometimes providing projections of a more environmentally friendly existence In this way the book argues that everyday lifestyles are not an irredeemable problem for environmentalism but an important site of environmental politics
