A History of Italian Colonialism 1900-1914 Giuseppe Finaldi, 2025-11-13 This book examines Italy's colonial history from the turn of the twentieth century to the outbreak of the First World War. This first volume engages with a period of huge social, political, and cultural change in Italy, resulting in a new dynamism on the African and expansionist front. Offering a sweeping account of events and a vast array of characters, it tells the story of a nation bent on conquest in China, Africa, and the Mediterranean, of indigenous resistance in Libya and East Africa, of defeat and of victory. It recounts how Italy dreamed and pursued an empire and how reality was never far from tripping up this, the least of the European Great Powers. From the ramifications of the defeat at Adowa in 1896 through the rule of Prime Minister Giovanni Giolitti to the attack on the Ottoman Empire in 1911 and beyond, the history of Italian colonialism is followed here up to the looming of the First World War. This volume is of great value to students and scholars alike interested in Italian, European, African, and colonial history.

A New History of War Reporting Kevin Williams, 2019-12-23 This book takes a fresh look at the history of war reporting to understand how new technology, new ways of waging war, and new media conditions are changing the role and work of today's war correspondent. Focussing on the mechanics of war reporting and the logistical and institutional pressures on correspondents

the book further examines the role of war propaganda accreditation and news management in shaping the evolution of the specialism Previously neglected conflicts and correspondents are reclaimed and wars considered as key moments in the history of war reporting such as the Crimean War 1854-56 and the Great War 1914-18 are re-evaluated The use of objectivity as the yardstick by which to assess the performance of war correspondents is questioned The emphasis is instead placed on war as a messy business which confronts reporters and photographers with conditions that challenge the norms of professional practice References to the demise of the war correspondent have accompanied the growth of the specialism since the days of William Howard Russell the so-called father of war reporting This highlights the fragile nature of this sub-genre of journalism and emphasises that continuity as much as change characterises the work of the war correspondent A thematically organised historically rich introduction this book is ideal for students of journalism media and communication

A Box of Sand Charles Stephenson, 2014-12-19 This is the first book in the English language to offer an analysis of a conflict that in so many ways raised the curtain on the Great War In September 1911 Italy declared war on the once mighty transcontinental Ottoman Empire but it was an Empire in decline The ambitious Italy decided to add to her growing African empire by attacking Ottoman ruled Tripolitania Libya The Italian action began the rapid fall of the Ottoman Empire which would end with its disintegration at the end of the First World War The day after Ottoman Turkey made peace with Italy in October 1912 the Balkan League attacked in the First Balkan War The Italo Ottoman War as a prelude to the unprecedented hostilities that would follow has so many firsts and pointers to the awful future the first three dimensional war with aerial reconnaissance and bombing and the first use of armored vehicles operating in concert with conventional ground and naval forces war fever whipped up by the Italian press military incompetence and stalemate lessons in how not to fight a guerrilla war mass death from disease and 10 000 more from reprisals and executions Thirty thousand men would die in a struggle for what may be described as little more than a scatolone di sabbia a box of sand As acclaimed historian Charles Stephenson portrays in this ground breaking study if there is an exemplar of the futility of war this is it Apart from the loss of life and the huge cost to Italy much higher than was originally envisaged the main outcome was to halve the Libyan population through emigration famine and casualties The Italo Ottoman War was a conflict overshadowed by the Great War but one which in many ways presaged the horrors to come *A Box of Sand* will be of great interest to students of military history and those with an interest in the history of North Africa and the development of technology in war **The Publishers Weekly**, 1913
