Rethinking Evidence in the Time of Pandemics Eivind Engebretsen, Mona Baker, 2022-09-22 The COVID 19 crisis has transformed the highly specialized issue of what constitutes reliable medical evidence into a topic of public concern and debate This book interrogates the assumption that evidence means the same thing to different constituencies and in different contexts Rather than treating various practices of knowledge as rational or irrational in purely scientific terms it explains the controversies surrounding COVID 19 by drawing on a theoretical framework that recognizes different types of rationality and hence plural conceptualizations of evidence Debates within and beyond the medical establishment on the efficacy of measures such as mandatory face masks are examined in detail as are various degrees of hesitancy towards vaccines The authors demonstrate that it is ultimately through narratives that knowledge about medical and other phenomena is communicated to others enters the public space and provokes discussion and disagreements This title is also available as Open Access on Cambridge Core

The Great Prostate Hoax Richard J. Ablin, Ronald Piana, 2014-03-04 Every year more than a million men undergo painful needle biopsies for prostate cancer and upward of 100 000 have radical prostatectomies resulting in incontinence and impotence But the shocking fact is that most of these men would never have died from this common form of cancer which frequently grows so slowly that it never even leaves the prostate How did we get to a point where so many

unnecessary tests and surgeries are being done In The Great Prostate Hoax Richard J Ablin exposes how a discovery he made in 1970 the prostate specific antigen PSA was co opted by the pharmaceutical industry into a multibillion dollar business He shows how his discovery of PSA was never meant to be used for screening prostate cancer and yet nonetheless the test was patented and eventually approved by the FDA in 1994 Now doctors and victims are beginning to speak out about the harm of the test and beginning to search for a true prostate cancer specific marker *Mass Gathering Medicine* William J.
