B

The last two figures of the commercial code refer to the engine model (detail A or B in figure n. 2).
Until the beginning of the year 2006 the engines produced had the code N45 MNA M10.00 or N67 MNA M15.00 (detail A in figure n. 2).
During the year 2006 relevant modifications have been made to the electric system and to the fuel supply circuit and a new

model identified with the code N45 MNA M10.01 or N67 MNA M15.01 was created (detail B in figure 2).
This document concerns both the models. The relating contents are developed in different chapters which can be identified thanks to the presence in each title of the extension M10.00/M15.00 or M10.01/M15.01.
Chapters 21 to the end of the document are common to both the models.
