imagine the impact which the Jaguar E type had when it was launched back in 1961 When the average saloon had a top speed of around 70mph and most were desperately dull the E type was a revelation and the few examples manufactured in 61 were literally mobbed Pre emptying computer aided design pre eminent aerodynamicist Malcolm Sayer uniquely applied complex mathematical formulae to create the stunning E type shape Ironically this intriguing man hated to be called a stylist yet he designed what is arguably the most beautiful car ever seen Today manufacturers build hundreds of prototypes when developing a new car Jaguar built just a handful of E types prior to launch All were scrapped bar one which was registered 9600 HP This car did extensive high speed testing on the newly opened M1 was the car that launched the E type at Geneva in 61 and was then road tested extensively by virtually every newspaper and magazine was the original and only due to a few secret modifications 150mph E type Driven by Stirling Moss amongst others it had a fascinating early life and a succession of interesting owners This is the story of the car s life the people who created and built this car the subsequent history its lapse into decay and its magnificent resurrection written by the world s leading expert and writer on the legendary E type Jaguar who also owns 9600 HP
