Romance, Language and Education in Jane Austen's Novels Laura G.

Mooneyham, 1988-06-18 *Eighteenth-Century Authorship and the Play of Fiction* Emily Hodgson Anderson, 2009-05-15 This study looks at developments in eighteenth century drama that influenced the rise of the novel it begins by asking why women writers of this period experimented so frequently with both novels and plays Here Eliza Haywood Frances Burney Elizabeth Inchbald Maria Edgeworth and Jane Austen explore theatrical frames from the playhouse to the social conventions of masquerade to the fictional frame of the novel itself that encourage audiences to dismiss what they contain as feigned Yet

such frames also as a result create a safe space for self expression These authors explore such payoffs both within their work through descriptions of heroines who disguise themselves to express themselves and through it Reading the act of authorship as itself a form of performance Anderson contextualizes the convention of fictionality that accompanied the development of the novel she notes that as the novel like the theater of the earlier eighteenth century came to highlight its fabricated nature authors could use it as a covert yet cathartic space Fiction for these authors like theatrical performance for the actor thus functions as an act of both disclosure and disguise or finally presents self expression as the ability to oscillate between the two in the play of fiction The Works of Thomas Love Peacock Including His Novels, Poems, Fugitive, Pieces, Criticism, Etc Peacock,1875
