Association for Trauma Surgery and Intensive Care IATSIIC the Manual of Definitive Surgical Trauma Care 6e is ideal for
training all surgeons and anaesthetists who manage trauma on an infrequent basis The Manual is updated every 4 years and
reflects the most recent developments in patient management based on new evidence based information Its focus is on the
importance of the multidisciplinary care of the trauma surgical patient This sixth edition has evolved and the all important
section on the Non Technical Skills which are required has been expanded A significant number of the original guidelines in
trauma have been archived as they are no longer pertinent or have been superseded The increasing and occasionally harmful
role of non operative management NOM has been recognized The Military Environments and Austere Environments chapters
have been substantially revised to reflect current multinational combat experience and broadened to reflect modern
asymmetrical conflicts and the increased need for humanitarian intervention including military peacekeeping in which only
one side wears a uniform Military weapons are used in major cities against the civilian population More recently urban non
military populations have been the targets and victims of heavy military combat including use of ultra sophisticated weaponry
Each situation carries its own spectrum of injury and responsibility of care Including website access to a selection of videos
which provide an anatomic overview of surgical approaches this resource provides a gold standard educational and training
resource to help prepare the relatively fully trained surgeon to manage the difficult injuries that might present to a major

Our mission is three-fold: Secure. The Foundation secures anomalies with the goal of preventing them from falling into the hands of civilian or rival agencies through extensive observation and surveillance and by acting to intercept such anomalies at the earliest opportunity. Contain. The Foundation contains anomalies with the goal of preventing their influence or effects from spreading by either relocating, concealing, or dismantling such anomalies or by suppressing or preventing public dissemination of knowledge thereof. Protect.
