Newcomers Navigating the

Welfare State Hanne Vandermeersch, Elsa Mescoli, Jean-Michel Lafleur, Peter De Cuyper, 2023-12-15 The topic of social assistance for migrant newcomers often sparks heated public debate and remains a prominent concern on the policy agenda. Society has experienced a growing level of diversity. This reality gives rise to new demands and changing profiles of individuals who benefit from welfare services. Welfare institutions which are responsible for providing social assistance play a crucial role in granting access to social benefits for newcomers. Moreover, the provision of social assistance can significantly influence the settlement and integration processes of migrants. This book provides empirical insights into the alignment between the needs of newcomers and the service provided to them. It examines the accessibility of social assistance for newcomers from a comprehensive perspective encompassing aspects such as gaining access including equal access for all and service availability. By focusing on the Belgian Public Centres for Social Welfare as a case study, the authors explore the policies and practices related to social assistance and labour market activation for newcomers and the factors that influence individuals' access to their rights. By incorporating the perspectives of all the relevant stakeholders involved, drawing on the insights of social workers and managers as well as the experiences of newcomers themselves, this book offers a unique understanding of the interactions between immigrants, the welfare state, and street-level bureaucrats. It provides valuable insights for enhancing service provision, striving for a more inclusive approach.

Tourism in European Microstates and Dependencies Dallen J. Timothy, 2020-11-06 *Tourism in European Microstates and Dependencies* carefully examines the nuances and realities associated with tourism, social and economic development, geography, and geopolitics of Europe's smallest microstates and dependencies. Through case study-based material, the book covers the smallest states of Europe, the European dependencies inside Europe, and other unique territorial anomalies and unrecognized de facto states. It looks at how, besides small size and economy of scale, one of the characteristics that connects these unique states and territories is their dependence on tourism or their desire to develop it for their socio-economic well-being.

Challenging Multiculturalism Raymond Taras, 2012-12-17 Tackles the challenge of dismantling the multicultural model without destroying diversity in European society. Have Europeans become hostile to multiculturalism? When people vote for anti-immigration parties, do they also support their anti-multiculturalism policies? And are right-wing extremists becoming the storm troopers of the struggle against diversity? In recent years, European political leaders from Angela Merkel to David Cameron have discarded the term multiculturalism and now express scepticism, criticism, and even hostility towards multicultural ways of organising their societies. Yet they are unprepared to reverse the diversity existing in their states. These contradictory choices have different political consequences in the countries examined in this book. The future of European liberalism is being played out as multicultural notions of belonging, inclusion, tolerance, and the national home are brought into question.
