Durée as Einstein-in-the-Heart Candice Lee Kent,2024-03-29 Dur e as Einstein in the Heart traces the trajectory of modernist interaction with Bergson and Einstein through the works of Virginia Woolf 1882 1941 and Mary Butts 1890 1937 It presents an overview of critical approaches that focus on time in Woolf s novels and that foreground Bergson in their analyses of Woolf It then examines how Woolf s formal experimentation and theorisation of time in Jacob s Room 1922 and Mrs Dalloway 1925 relates to Bergson s temporal theories This is followed by a discussion on the role Bergson s thinking played in the early formulation of Butts s ideas of time and an analysis of how Bergson s ideas emerge in the short story Angele au Couvent 1923 concluding by highlighting points of contrast in the engagements of Woolf and Butts The book then documents the growth of

Butts's interest in Einstein's ideas and shows how she amalgamates these with Bergson's thinking in her journals and in the most intense of her fictional engagement with Einstein's ideas the novel *Death of Felicity Taverner* 1932 It discusses Butts's responses to the popular science genre and examines the important role played by J W N Sullivan and Arthur Eddington in the development of her understanding and interpretation of physics It concludes with a discussion of Butts's antisemitic characterisation of Kralin as purveyor of corrupted science in contrast with the Taverners who are conscious of *dur e* and delight in the abstractions of scientific truth *Towards Radical Regeneration* Christoph Gengnagel, Olivier
