Is Your Child Really Listening One Minute Games To Help Kids Focus:

Is Your Child Really Listening? Rhea Farbman,2015-10-06 My students of all ages taught me they did not know how to listen I learned that in order to be successful in my work I would have to focus them before the lesson You don t have to be a teacher to lead these games Anyone can listen when we know what to do We have to know what it feels like in the body and mind and then we can go right to that place Kids love to have fun and they especially love to lead These games work if you are the leader or the player Both roles must listen carefully People with special needs love these games too Everyone loves these one minute games because they see results quickly

The Empathy Advantage Lynne Azarchi,2020-11-04 We live in a time when empathy is not only lacking but on the decline Kids are bullied because of the color of their skin religion culture a disability and more Bullying and cyberbullying are increasing especially for black and brown kids LGBT youth and Jewish and Muslim youth Fueled by decreases in respect kindness and compassion the house is on fire Empathy may be not be a cure all but just a little effort can transform a child into a more sensitive caring human being The good news is that empathy the ability to walk in someone else s shoes can be taught This book is all about teaching adults to teach empathy to kids The payoff will last a lifetime In this helpful guide parents caregivers and teachers are coached to help their children and students to develop social emotional skills that will equip them to better navigate the world with self compassion and empathetic concern The Empathy Advantage is for the busiest parents and educators It provides tips strategies online resources and activities that are fun and engaging and take just 10 to 20 minutes It emphasizes the importance of starting early being good role models spending quality face to face time together and more It will help readers understand the dynamics of bullying and teach children to stand up not only for themselves but others And it explores other topics including managing media in the home the value of pets in inculcating empathy active listening and self compassion i e being as forgiving and kind to yourself as you would to a friend

The Power of Story Joan Wink Ph.D., 2017-11-07 Through this book readers will discover that stories can move the human heart and head in ways that research cannot. Stories bring together readers, writers, librarians, teachers, students, and families in the libraries of today and will continue to do so tomorrow. Written for all those lovers of literacy, this book links libraries and literacies through the power of stories. The book is not filled with data in the form of pie charts, graphs, and tables. Rather, the truth of the research is grounded in authentic stories that reflect not only the interpretation of data but also the transformative nature of literacies and libraries. The author's primary goal is that readers will come to value and use storytelling in their own professional and personal lives to explain and expand on complex concepts and to make information more accessible for all. The book begins by presenting anecdotes and the author's personal story to lay the foundation for what literacies are and what literacy is not. An activity, *Spiral of Literacy*, allows readers to reflect on their own literacies. Chapters that follow each begin with a story that sets the theoretical foundation. Each chapter concludes with an action section that demonstrates how to turn theory to practice, whether you are in a library, a classroom, or at home. A final chapter envisions what libraries might look like in 10 years through interviews with librarians, teachers, and others interested in literacy.

The Do Over Ruthann Masters, 2022-08-16 Where do broken dreams go? The promise of a life of love and adventure turns into a trip to nowhere. Can Kate muster the courage and strength to turn things around? Her marriage is in shambles, her teenagers are a mess. She is barely hanging on. Can a broken home and heart be mended? Can Kate start over? If she reaches out to God, will he help her rein in her life that is spinning out of control, or is it too late?

How to Teach ADHD Kids Ann R. Sutton, We worry so much about what we need to do as parents, how to juggle life and everything in between. Do you know what else keeps parents like you on their toes? Kids. But not just any kids. But kids with ADHD. You are a good parent, no doubt, but if your kid has ADHD, being a good parent may not be enough. To ensure that your child is happy and well-adjusted now and in the future, you've got to take it up a notch and be a GREAT parent to your child. And that's exactly what you will learn from this book. Let me know if any of these sound familiar: Your child hardly ever pays close attention to details, instructions, and usually makes careless mistakes. Your child is often distracted by little things. Most times, he/she has trouble remembering everyday things. You notice he/she avoids tasks that require a lot of mental effort. He/she has trouble listening when spoken to and getting things in order. More so often, he/she loses things like schoolwork, wallets, books, keys, or mobile phones. If some or even all of the above is putting a lot of pressure on your plate, then you should get familiar with the strategies many parents have used successfully to get their ADHD kids focused on learning. This book is written by a parent who has been there and done that. Dive right into it now and Get Your Copy.

303 Kid-Approved Exercises and Active Games Kimberly Wechsler, 2012-06-12 With game consoles and the Internet children are playing as much as they always have but now they sit still while doing it Kids spend as much time watching TV using computers and playing video games as they spend in school each week One in every three kids in America is considered overweight or obese and the number one concern that parents bring up to pediatricians is keeping kids fit Half of all children are not physically active enough for the development of a healthy cardiovascular system 303 Kid Approved Exercises and Active Games helps 6-8 year old kids get off their chairs with fun and age appropriate exercises Exercise for children must be fun These exercises have been used for personal training sessions kids fitness classes kids fitness camps birthday parties and in schools they have all been Kid Approved Kimberley Wechsler a specialist in Kid's Fitness took into account the fundamental attributes of being a child while developing these exercises Children have specific physiologic differences that make them unique They grow mature and develop skills at different ages so what may be skill appropriate for one child could be harmful for another child These exercises reflect the emotional social physical level of this age group At this age children feel confident with the basic skill of fitness and are now ready to be challenged to more complex moves They are now at the skill level in which physical challenges like balance muscle building hand eye hand foot coordination increasing challenges for their fine and gross motor skills and functional training can be more added They are growing in their intellectual and emotional processes as well which now allows this age group to follow and understand simple rules of a sport They are also introduced to the concept of friendly competition and sports fitness Children also enjoy using their imagination and fantasy so exercises require the use of their

imagination There are games and fitness challenges that require kids to take an active role in learning new skills and there are introductions to new sports Kids still enjoy outside participation so families friends educators and counselors can participate in all of the 303 activities Kids at this age can't seem to sit still their minds are always thinking and their bodies are always moving Children have short attention spans so most of the activities can be played within a 15 minute period of time and many choices are offered throughout the book 303 Kid Approved Exercises and Active Games supports children's energy and directs it in a positive way the activities take advantage of a child's natural tendency to be active with unstructured or free play 303 Kid Approved Exercises and Active Games develops intellectual emotional and social skills for children all the while promoting an active and healthy lifestyle *The Education Digest*, 1997 What's Your Point?
