## **Ischemic Optic Neuropathies Ischemic Optic Neuropathies:**

**Ischemic Optic Neuropathies** Sohan Singh Hayreh, 2011-08-28 Ischemic optic neuropathy often referred to as a stroke of the optic nerve is one of the major causes of visual impairment or loss of vision Yet it is a highly controversial and confusing subject because of the general lack of in depth scientific understanding of the subject In this book the leading authority in the field describes in detail the current knowledge about the different forms of the often devastating disease Insights into the underlying pathogenesis and peculiar clinical features are given leading the reader to the most appropriate way of management This information will help any physician dealing with patients who suffer from sudden loss of vision

Anterior Ischemic Optic Neuropathy S.S. Hayreh, 2012-12-06 No attainment is ever final Vascular disorders of the optic disc and nerve are important not only to the ophthalmologist but also to the neurologist and the internist To the first specialty group they represent one cause of blindness or severe visual impairment to the second group the optic disc edema and optic atrophy seen in these disorders can pose serious problems of diagnosis or give indications of the involvement of the cerebral circulation while to the last group they are frequently indicative of systemic disease particularly of the cardiovascular system Recent advances in our knowledge of the blood supply of the optic nerve head have shed a significant new light on the subject With the recent advent of fluorescein fundus angiography an extra dimension has been added to the study of the ocular and optic disc circulations and we have entered into a new era in the understanding of ocular vascular disorders in vivo In the pre angiography era postmortem injection studies although very valuable did not completely reveal the vascular pattern of the optic disc in the living in health and disease The ophthalmoscope without doubt has been valuable in assessing optic disc lesions but could not give us information on the circulation of the eye and optic disc in vivo *Optic Nerve*
