Islam And The Arab Awakening:

Islam and the Arab Awakening Tariq Ramadan, 2012 Tariq Ramadan presents analysis of the Arab Spring focusing on the role played by Islam in the uprisings and considering what its position will be in the new societies taking shape **Arab Awakening and Islamic Revival** Martin Kramer, 2017-07-05 Over the past decade the political ground beneath the Middle East has shifted Arab nationalism the political orthodoxy for most of this century has lost its grip on the imagination and allegiance of a new generation At the same time Islam as an ideology has spread across the region and Islamists bid to capture the center of politics Most Western scholars and experts once hailed the redemptive power of Arabism Arab Awakening and Islamic Revival is a critical assessment of the contradictions of Arab nationalism and Islamic fundamentalism and the misrepresentation of both in the West The first part of the book argues that Arab nationalism the so called Arab awakening bore within it the seeds of its own failure Arabism as an idea drew upon foreign sources and resources Even as it claimed to liberate the Arabs from imperialism it deepened intellectual dependence upon the West's own romanticism and radicalism Ultimately Arab nationalism became a force of oppression rather than liberation and a mirror image of the imperialism it defied Kramer's essays together form the only chronological telling and the at fully documented postmortem of Arabism The second part of the book examines the similar failings of Islamism whose ideas are Islamic reworkings of Western ideological radicalism Its effect has been to give new life to old rationales for oppression authoritarianism and sectarian division Arab Awakening and Islamic Revival provides an alternative view of a century of Middle Eastern history As the region moves fitfully past ideology Kramer's perspective is more compelling than at any time in the past in Western academe no less than among many in the Middle This book will be of interest to sociologists political scientists economists and Middle East specialists *Arab Awakening and Islamic Revival* Thomas Molnar, 2017-07-05 Over the past decade the political ground beneath the Middle East has shifted Arab nationalism the political orthodoxy for most of this century has lost its grip on the imagination and allegiance of a new generation At the same time Islam as an ideology has spread across the region and Islamists bid to capture the center of politics Most Western scholars and experts once hailed the redemptive power of Arabism Arab Awakening and Islamic Revival is a critical assessment of the contradictions of Arab nationalism and Islamic fundamentalism and the misrepresentation of both in the West The first part of the book argues that Arab nationalism the so called Arab awakening bore within it the seeds of its own failure Arabism as an idea drew upon foreign sources and resources Even as it claimed to liberate the Arabs from imperialism it deepened intellectual dependence upon the West's own romanticism and radicalism Ultimately Arab nationalism became a force of oppression rather than liberation and a mirror image of the imperialism it defied Kramer's essays together form the only chronological telling and the at fully documented postmortem of Arabism The second part of the book examines the similar failings of Islamism whose ideas are Islamic reworkings of Western ideological radicalism Its effect has been to give new life to old rationales for oppression

authoritarianism and sectarian division Arab Awakening and Islamic Revival provides an alternative view of a century of Middle Eastern history As the region moves fitfully past ideology Kramer s perspective is more compelling than at any time in the past in Western academe no less than among many in the Middle This book will be of interest to sociologists political scientists economists and Middle East specialists

The Arab Awakening Tariq Ramadan,2012-04-05 Tariq Ramadan is one of the most acclaimed figures in the analysis of Islam and its political dimensions today In The Arab Awakening he explores the opportunities and challenges across North Africa and the Middle East as they look to create new more open societies He asks can Muslim countries bring together Islam pluralism and democracy without betraying their identity Will the Arab world be able to reclaim its memory to reinvent education women s rights social justice economic growth and the fight against corruption Can this emancipation be envisioned with Islam experienced not as a straitjacket but as an ethical and cultural wealth Arguing that the debate cannot be reduced to a confrontation between two approaches the modern and secular versus the traditional and Islamic Ramadan demonstrates that not only are both of these routes in crisis but that the Arab world has an historic opportunity to stop blaming the West to jettison its victim status and to create a truly new dynamic Tariq Ramadan offers up a challenge to the Middle East what enduring legacy will you produce from the historic moment of the Arab Spring

The Second Arab Awakening Marwan Muasher,2014-01-28 This important book is not about immediate events or policies or responses to the Arab Spring Instead it takes a long judicious view of political change in the Arab world beginning with the first Awakening in the nineteenth century and extending into future decades when if the dream is realized a new Arab world defined by pluralism and tolerance will emerge div DIVdivMarwan Muasher former foreign minister of Jordan asserts that all sides the United States Europe Israel and Arab governments alike were deeply misguided in their thinking about Arab politics and society when the turmoil of the Arab Spring erupted He explains the causes of the unrest tracing them back to the first Arab Awakening and warns of the forces today that threaten the success of the Second Arab Awakening ignited in December 2010 Hope rests with the new generation and its commitment to tolerance diversity the peaceful rotation of power and inclusive economic growth Muasher maintains He calls on the West to rethink political Islam and the Arab Israeli conflict and he discusses steps all parties can take to encourage positive state building in the freshly unsettled Arab world DIV

The Second Arab Awakening: Revolution, Democracy, and the Islamist Challenge from Tunis to Damascus Adeed Dawisha,2013-04-08 Discusses the recent uprisings in the Arab world and offers a historical perspective on the movement citing the demands for regime change in 1950s and 1960s that ultimately lead to today s ruling tyrants

Islam and the Arab Revolutions Usaama Al-Azami,2022-05-01 The Arab revolutions of 2011 were a transformative moment in the modern history of the Middle East as people rose up against long standing autocrats throughout the region to call for bread freedom and dignity With the passage of time results have been decidedly mixed with tentative success stories like Tunisia contrasting with the emergence of even more repressive dictatorships in

places like Egypt with the backing of several Gulf states Focusing primarily on Egypt this book considers a relatively understudied dimension of these revolutions the role of prominent religious scholars While pro revolutionary ulama have justified activism against authoritarian regimes counter revolutionary scholars have provided religious backing for repression and in some cases the mass murder of unarmed protestors Usaama al Azami traces the public engagements and religious pronouncements of several prominent ulama in the region including Yusuf al Qaradawi Ali Gomaa and Abdullah bin Bayyah to explore their role in either championing the Arab revolutions or supporting their repression He concludes that while a minority of noted scholars have enthusiastically endorsed the counter revolutions their approach is attributable less to premodern theology and more to their distinctly modern commitment to the authoritarian state **Islam and the Arabs**

Mahmoud M. Ayoub,2016-11-10 This volume first published in 1987 was the first to examine in depth the religious thought of Colonel Mu ammar al Qadhdhafi and its central place in his political social and economic theories The work is based on sources inaccessible except in the original Arabic While drawn from Islamic concepts and sources Qadhdhafi s religious views were original His religious openness and universal view of Islam and other monotheistic religions in particular will be surprising to those familiar with only the image associated with him in the Western mind This title is a useful source for students of both politics and Islamic studies Islamic Fundamentalism since 1945 Beverley Milton-Edwards,2013-09-11

processes in Egypt after 2011 Radoslaw Fiedler,Przemyslaw Osiewicz,2015-08-17 The main advantage of this monograph is that it attempts to conduct the most up to date analysis possible of the present political situation in Egypt and the Middle East Therefore we receive a monograph which allows us not only to look at the Arab Spring from a historical perspective but

primarily to reflect on the consequences of these past events that it was hoped would spark political reforms in Arab states and facilitate greater public participation in the system of governance Thus this publication allows the verification of many of the judgments and opinions expressed during the Arab Spring on the possible direction of development of the political processes initiated by the massive social revolts in Arab countries Islam in International Relations Nassef Manabilang Adiong, Raffaele Mauriello, Deina Abdelkader, 2018-11-02 *Islam in International Relations Politics and Paradigms* analyses the interaction between Islam and IR It shows how Islam is a conceptualization of ideas that affect people's thinking and behaviour in their capacity to relate with IR as both discipline and practice This approach challenges Western based and defined epistemological and ontological foundations of the discipline and by doing so contributes to worlding IR as a field of study and practice by presenting and discussing a broad range of standpoints from within Islamic civilization The volume opens with the presentation and discussion of the international thought of a major Muslim leader followed by a chapter that addresses the ethical practice of IR from traditional pacifism to modern Arab political philosophy It then switches to applying constructivism as a tool to understand Islam in world affairs and proceeds to address the issue of how the ethnocentric approach of Western academia has hindered our understanding of world affairs The volume moves on to address the ISIS phenomenon a current urgent issue in world affairs and closes with a look at Islamic geopolitics This comprehensive collection will be of great interest to students scholars and policy makers with a focus on the Muslim world *Arabs and Jews in Ottoman Palestine* Alan Dowty, 2020-03-04 The historian and expert on Israeli Palestinian relations offers a well written well balanced account of cultural conflicts in the region before WWI Anita Shapira author of *Israel A History* When did the Arab Israeli conflict begin Some discussions focus on the 1967 war some go back to the creation of the state of Israel in 1948 and others look to the beginning of the British Mandate in 1922 Alan Dowty however traces the earliest roots of the conflict to the Ottoman Empire in the 19th century arguing that this historical approach highlights constant clashes between religious and ethnic groups in Palestine Dowty demonstrates that during the 19th century there was an overwhelming hostility to European foreigners and that Arab residents viewed new Jewish settlers as European He also shows that Jewish settlers had tremendous incentive to minimize all obstacles to settlement including the inconvenient hostility of the existing population Dowty's thorough research reveals how events that occurred over 125 years ago shaped the implacable conflict that dominates the Middle East today *Muslim Perspectives on Islamophobia* Zouhir Gabsi, 2024-08-06 The Islamic positioning of Islamophobia is presented in this book Through Islamic or Muslim perspectives the book engages with various Islamic texts and discourses spoken and written emanating from preachers and scholars of Islam to discuss the points of convergence and divergence with the Western interpretation of the phenomenon The book aims to look at Islamophobia from a hitherto unexplored angle by first analyzing the points of convergence and divergence between the internal Muslim and external Western perspectives and then by providing new approaches to curbing Islamophobia through a holistic spiritual

dimension of Islam and cultural memory The book contends that the bridges of understanding between the East and the West can only be built if some of Islam's theological concepts such as the place of reason in Islam are reinterpreted by considering the Islamic perspectives While the book acknowledges previous work on Islamophobia it contributes to a deeper understanding of Islamophobia in its internal and external manifestations by considering the theoretical frameworks of racism and xenophobia Readers interested in Islamic studies and anti racism narratives would find this book's eclectic approach and balanced perspective of the phenomenon informative and enlightening

Islamism and Cultural Expression in the Arab World Abir Hamdar, Lindsey Moore, 2015-04-10 Whereas most studies of Islamism focus on politics and religious ideology this book analyses the ways in which Islamism in the Arab world is defined reflected transmitted and contested in a variety of creative and other cultural forms It covers a range of contexts of production and reception from the early twentieth century to the present and with reference to cultural production in and or about Morocco Algeria Tunisia Egypt Yemen the Gulf Lebanon and Israel Palestine The material engaged with is produced in Arabic English and French and includes fiction autobiography feature films television series television reportage the press rap music and video games Throughout the book highlights the multiple forms and contested interpretations of Islamism in the Arab world exploring trends and tensions in the ways Islamism is represented to primarily Arab audiences and complicating simplistic perspectives on this phenomenon The book considers repeated and idiosyncratic themes modes of characterisation motifs structures of feeling and forms of engagement in the context of an ongoing struggle for symbolic power in the region

Islam's Predicament with Modernity Bassam Tibi, 2009-02-25 Islam's Predicament with Modernity presents an in depth cultural and political analysis of the issue of political Islam as a potential source of tensions and conflict and how this might be peacefully resolved Looking at the issue of modernity from an Islamic point of view the author examines the role of culture and religion in Muslim society under conditions of globalisation and analyses issues such as law knowledge and human rights He engages a number of significant studies on political Islam and draws on detailed case studies rejecting the approaches of both Orientalists and apologists and calling instead for a genuine Islamic pluralism that accepts the equality of others Situating modernity as a Western product at the crux of his argument he argues that a separation of religion and politics is required which presents a challenge to the Islamic worldview This critical analysis of value conflicts tensions and change in the Islamic world will be of interest to scholars and advanced students of international relations social theory political science religion Islamic studies and Middle Eastern studies

thought on Islam this book will appeal to a wide range of scholars and laymen interested in the Islamic world It will be of particular interest to sociologists specializing in religion and Middle East area specialists Toby E Huff is professor of sociology at the University of Massachusetts Dartmouth He is editor of On the Roads to Modernity Conscience Science and Civilization Selected Writings by Benjamin Nelson and the author of Max Weber and the Methodology of the Social Sciences and The Rise of Early Modern Science Islam China and the West Wolfgang Schluchter is professor of sociology at the University of Heidelberg and dean of the Max Weber Center for Advanced Studies at the University of Erfurt Islam against the West William L. Cleveland, 2014-07-03 This book gives a unique perspective on the interwar history of the Middle East By telling the life story of one man it illuminates the political and cultural struggles of an era Shakib Arslan 1869 1946 was a leading member of the generation of Ottoman Arabs who came to professional maturity just before the final defeat of the Ottoman Empire Born to a powerful Lebanese Druze family Arslan grew up perfectly suited to his time and place in history He was one of the leading writers of his day and a dexterous ambitious politician But by the end of World War I Arslan and others of his generation found themselves adrift in a world no longer of their choosing as the once great Ottoman state lay broken before the West Rather than retreating from public life in those dark days however Arslan emerged militant in his opposition to Western encroachment on Islamic lands and tireless in his crusade to bring the organizing principles of a universalist Islam to the age of emerging nation states Organizer pamphleteer diplomat spokesman and symbol Arslan became one of the dominant and most controversial Muslim political figures in the two decades between the wars His involvements were so varied and intense that to study his life is to bring into focus all the major political issues and intellectual currents of the era By the end of his career he was both praised and vilified but he was arguably the most widely read Arab author of his day Curiously Arslan has received relatively little attention in English language research This may well be due less to his contemporary importance than to the perspective from which Western scholarship has viewed Middle Eastern intellectual history Arslan was not one of the winners For many his evocation of the old imperial ideal and his insistence on the strategic importance of Islamic ideals seemed to be simply archaic protest in a secular age But this impeccably researched and beautifully written biography demonstrates the power and importance of Arslan s activist heritage reinterpreting it for its own time and showing its importance for ours
