study Al Faruqi presents the meaning and message of Islam to the wider world community Key elements of the faith are summarized and explained in an overall theme of seven parts consisting of 21 chapters Yet the chapters represent far more than a simple description of Muslim peoples and orthodox practice Al Faruqi was a great thinker formidable in logic and relished intellectual engagement on every level particularly when it came to Islam and other Faiths And it is this unique reasoning process that is reflected in this work Al Faruqi's signature contribution which not only expounds on Islam as spiritual faith and action but also on Islam the great experience **Finding Mecca in America** Mucahit Bilici, 2024-05-31

The events of 9 11 had a profound impact on American society but they had an even more lasting effect on Muslims living in the United States Once practically invisible they suddenly found themselves overexposed By describing how Islam in America began as a strange cultural object and is gradually sinking into familiarity *Finding Mecca in America* illuminates the growing relationship between Islam and American culture as Muslims find a homeland in America Rich in ethnographic detail the book is an up close account of how Islam takes its American shape In this book Mucahit Bilici traces American Muslims

progress from outsiders to natives and from immigrants to citizens Drawing on the philosophies of Simmel and Heidegger Bilici develops a novel sociological approach and offers insights into the civil rights activities of Muslim Americans their increasing efforts at interfaith dialogue and the recent phenomenon of Muslim ethnic comedy Theoretically sophisticated Finding Mecca in America is both a portrait of American Islam and a groundbreaking study of what it means to feel at home

Fundamentals of Islamic Thought Murtaẓā Muṭahharī, Hamid Algar, 1985 *The Attributes of God in Islamic Thought* Mansoor Khalilzand, 2024-03-18 The debate over Allah's attribute the nature and the inner articulation of Allah is one of the focal debates in the intellectual history of Islam This edited collection aims to highlight and examine some aspects of this debate in their original context based on the relevant primary literature By showing that even an apparently self-evident concept such as Allah which lies at the heart of every reading of Islam is highly ambiguous and polysemous the chapters also emphasise the plurality that has always existed in Islamic thought Through highlighting the philosophical and theological

reflections on the concept of Allah the results of this study challenge the juristic reading of Islam in which Allah's function consists mainly in providing a detailed plan for the human life and also rewarding or punishing the ones who deviates from it. The book also attempts to demonstrate the relevance and the actuality of the tradition and to stress its contemporaneity. This volume makes a significant part of the intellectual tradition of Islam accessible for students and scholars of Islamic theology, Islamic philosophy, Islamic studies and the like as well as providing a secondary source for teaching on the debate in question.

What is Islamic Philosophy? Roy Jackson, 2014-02-05.
