[Routledge Handbook of Non-Violent Extremism](#) Elisa Orofino, William Allchorn, 2023-03-09 This Handbook provides the first in depth analysis of non violent extremism across different ideologies and geographic centres a topic overshadowed until now by the political and academic focus on violent and jihadi extremism in the Global North. Whilst acknowledging the potentiality of non violent extremism as a precursor to terrorism this Handbook argues that non violent extremism ought to be considered a stand alone area of study. Focusing on Islamist Buddhist Hindu far right far left environmentalist and feminist manifestations the Handbook discusses the ideological foundation of their war on ideas against the prevailing socio political and cultural systems in which they operate and provides an empirical examination of their main claims and perspectives. This is supplemented by a truly global overview of non violent extremist groups not only in Europe and the United States but also in Africa Asia Oceania and the Middle East. The Handbook thus answers a call to decolonise knowledge that is especially prescient given both the complicity of non violent extremists with authoritarian states and the dynamic of oppression towards more progressive groups in the Global South. The Handbook will appeal to those studying extremism radicalisation and terrorism. It intersects several relevant disciplines including social movement studies political science criminology Islamic studies and anthropology.

The Muslim Brotherhood Beverley Milton-Edwards, 2015-12-14 The Muslim Brotherhood is the most significant and enduring Sunni Islamist organization of the contemporary era. Its roots lie in the Middle East but it has grown into both a local and global movement with its well placed branches reacting effectively to take the opportunities for power and electoral competition offered by the Arab Spring. Regarded by some as a force of moderation among Islamists and by others as a facade hiding a terrorist fundamentalist threat the potential influence of the Muslim Brotherhood on Middle Eastern politics remains ambiguous. *The Muslim Brotherhood The Arab Spring and its Future Face* provides an essential insight into the organisation with chapters devoted to specific cases where the Brotherhood has important impacts on society the state and politics. Key themes associated with the Brotherhood such as democracy equality pan Islamism radicalism reform the Palestine issue and gender are assessed to reveal an evolutionary trend within the movement since its founding in Egypt in 1928 to its manifestation as the largest Sunni Islamist movement in the Middle East in the 21st century. The book addresses the possible future of the Muslim Brotherhood whether it can surprise sceptics and

effectively accommodate democracy and secular trends and how its ascension to power through the ballot box might influence Western policy debates on their engagement with this manifestation of political Islam Drawing on a wide range of sources this book presents a comprehensive study of a newly resurgent movement and is a valuable resource for students scholars and policy makers focused on Middle Eastern Politics An Introduction to the Modern Middle East, Student Economy Edition David Sorenson,2018-10-03 This book introduces the politics of the modern Middle East which includes the countries of the Persian Gulf the eastern Mediterranean countries and North Africa It covers the major geographical regions that make up the Middle East and summarizes the post World War I history of the Middle East **Competing Fundamentalisms** Sathianathan Clarke,2017-03-29 Why do certain groups and individuals seek to do harm in the name of God While studies often claim to hold the key to this frightening phenomenon they seldom account for the crucial role that religious conviction plays not just in radical Islam but also in the fundamentalist branches of the world s two other largest religions Christianity and Hinduism As the first book to examine violent extremism in all three religions together *Competing Fundamentalisms* draws on studies in sociology psychology culture and economics while focusing on the central role of religious ideasto paint a richer portrait of this potent force in modern life Clarke argues that the forces of globalization fuel the aggression of these movements to produce the competing feature of religious fundamentalisms which have more in common with their counterparts across religious lines than they do with the members of their own religions He proposes ways to deescalate religious violence in the service of peacemaking Readers will gain important insights into how violent religious fundamentalism works in the world s three largest religions and learn new strategies for promoting peace in the context of contemporary interreligious conflict *Islamism* Richard Martin,Abbas Barzegar,2010 Scholars and public intellectuals debate the significance of the term Islamism and ask what it means to apply this term to Islamic religion tradition and social conflict **A Concise History of the World Since 1945** W. M. Spellman,2020-09-16 This lively synthesis of global history since the end of World War II offers a gripping account of an interdependent world and the challenges facing individuals in the 21st century The narrative is arranged around two key tensions the struggle between socialism and free market capitalism and the interaction between cultural fragmentation and the competing integrative force of globalization Considering the historical experience of Africa Asia and Latin America as well as the West it addresses the ever expanding gulf between the developed North and developing South and the environmental impact of development on the planet s delicate ecosystems Authoritative and well written this is an ideal introductory guide for undergraduate and postgraduate students taking courses on global history since 1945 It is also a fascinating primer for anyone with an interest in global history and the issues affecting the globe today New to this Edition Updated to cover events since 2006 including the conflicts in Afghanistan Iraq and Syria China s economic and military advance to great power status the refugee crises and the global financial crisis of 2008 New material on the international drugs trade global opioid crisis and healthcare

Reasoning with God Khaled Abou El Fadl, 2014-10-23 In light of recent concern over Shari'ah such as proposed laws to prohibit it in the United States and conflict over the role it should play in the new Egyptian constitution many people are confused about the meaning of Shari'ah in Islam and its role in the world today In Reasoning with God renowned Islamic scholar Khaled Abou El Fadl explains not only what Shari'ah really means but also the way it can revitalize and reengage contemporary Islam After a prologue that provides an essential overview of Shari'ah Abou El Fadl explores the moral trajectory of Islam in today's world Weaving powerful personal stories with broader global examples he shows the ways that some interpretations of Islam today have undermined its potential in peace and love Rather than simply outlining challenges however the author provides constructive suggestions about how Muslims can reengage the ethical tradition of their faith through Shari'ah As the world's second largest religion Islam remains an important force on the global stage Reasoning with God takes readers both Muslim and non Muslim beyond superficial understandings of Shari'ah to a deeper understanding of its meaning and potential

The Islamic Threat John L. Esposito, 1999-10-07 Are Islam and the West on a collision course From the Ayatollah Khomeini to Saddam Hussein the image of Islam as a militant expansionist and rabidly anti American religion has gripped the minds of Western governments and media But these perceptions John L Esposito writes stem from a long history of mutual distrust criticism and condemnation and are far too simplistic to help us understand one of the most important political issues of our time In this new edition of The Islamic Threat Myth or Reality Esposito places the challenge of Islam in critical perspective Exploring the vitality of this religion as a global force and the history of its relations with the West Esposito demonstrates the diversity of the Islamic resurgence and the mistakes our analysts make in assuming a hostile monolithic Islam This third edition has been expanded to include new material on current affairs in Turkey Afghanistan Palestine and Southeast Asia as well as a discussion of international terrorism

Religious Freedom and the Position of Islam in Western Europe W. A. R. Shadid, P. S. van Koningsveld, 1995 The permanent presence of Islam and Muslims approximately 7 million is a comparatively recent phenomenon in most countries of the European Community By far the greater majority of them consists of former inhabitants of the Muslim world who migrated to the West for economic or political reasons after the Second World War Over the last decades many initiatives have been launched by Muslim communities to create infrastructural provisions for their religious life within the existing legal and social frameworks In fact all countries of the European Community share the principles of religious freedom and non discrimination in their respective Constitutions However the precise way in which these principles are interpreted and applied to Islam depends largely on the historical traditions concerning the relations between State and Religion which differ from one country to another The present book is mainly based on the numerous articles and books concerning the public status of Islam in the various countries of Western Europe which were published between 1987 and 1994 First of all a comparative study is offered of the relation between State and Religion according to the constitutional traditions of the member states of the European Community Secondly the authors discuss the opportunities and obstacles in the realization of an organizational structure by the Muslim communities Attention is paid among others to the foundation of mosques the position of imams and the attempts to create representative bodies on the national level which can serve as negotiating partners with the national governments In a separate chapter attention is paid to Islam as a minority religion from a theoretical point of view Then follows a discussion of the possibilities for the observance of Islamic customs and rituals such as religious holidays dietary laws and dress rules With regard to Islamic religious education attention is paid in the last chapter to religious education within mosques public Christian and Islamic schools At the end there is an extensive bibliography with an index of subjects and countries
