Religion and Extremism Douglas Pratt, 2017-12-14 Focusing on the three monotheistic religions of Judaism Christianity and Islam Douglas Pratt argues that despite a popular focus on Islam extremist Jews and Christians can also enact terror and destruction Religion and Extremism stresses that the ideological rejection of diversity underlies religious extremism resulting in violent behaviours and increasingly in hardening social and religious attitudes and responses An analysis of religiously driven terrorism reveals the presence of a distinctive and rigid form of exclusivity found in these religions In this regard the contemporary resurgence in totalising claims of fundamentalist ideologues is cause for particular

concern Pratt reasons that however expressed the motif of the Absolute is central to all but how that absolute is and has been received interpreted and responded to is a matter of great diversity The author asserts that theological Absolutism displays an underlying dynamic whereby these three religions may be led into extremism Religion and Extremism also explores contemporary issues of Islamophobia and mutual extremism identified as reactive co radicalization and concludes by reflecting on how extremism today might be countered

Islamism and Globalisation in Jordan Daniel Atzori,2015-05-22 This book explores the activities of the local Muslim Brotherhood in Jordan It examines how the Brotherhood working to establish an alternative social political and moral order through a network of Islamic institutions made a huge contribution to the transformation of Jordanian society It reveals however that the Brotherhood s involvement in the economic realm in Islamic financial activities led it to engage with the neo liberal approach to the economy with the result that the Islamic social institutions created by the Brotherhood such as charities lost their importance in favour of profit oriented activities owned by leading Islamist individuals The book thereby demonstrates the hybridisation of Islamism and argues that Islamism is not an abstract set of beliefs but rather a collection of historically constructed practices The book also illustrates how globalisation is profoundly influencing culture and society in the Arab world though modified by the adoption of an Islamic framework

Fundamentalism Simon A. Wood,David Harrington Watt,2014-05-26 Essays considering how global fundamentalism influences our understanding of modern Christianity Judaism and Islam Thirty years after the Iranian Revolution and more than a decade since the events of 2001 the time is right to examine what the discourse on fundamentalism has achieved and where it might head from here In this volume editors Simon A Wood and David Harrington Watt offer eleven interdisciplinary perspectives framed by the debate between advocates and critics of the concept of fundamentalism that investigate it with regard to Christianity Islam and Judaism The essays are integrated through engagement with a common selection of texts on fundamentalism and a common set of questions about the utility and disadvantages of the term its varied application by scholars of particular groups and the extent to which the term can encompass a cross cultural set of religious responses to modernity Although the notion of fundamentalism as a global phenomenon dates from around 1980 the term itself originated in North American Protestantism approximately six decades earlier and acquired pejorative connotations within five years of its invention Since the early 1990s however many scholars have endorsed the view that the notion of fundamentalism as

relying on literalist interpretations of the scriptures firm commitment to patriarchy or refusal to confine religious matters to the private sphere facilitates our understanding of modern religion by enabling us to identify and label structurally analogous developments in different religions Critics of the term have identified problems with it above all that the idea of global fundamentalism confuses more than it clarifies and unjustifiably overlooks downplays or homogenizes difference more than it identifies a genuine homogeneity The editor's rigorous exploration of both the usefulness and the limitations of the concept make it an excellent counterpoint to the many books that have a great deal to say about the former and very little to say about the latter It will also serve as an ideal text for religious studies history and anthropology courses that explore the complex interface between religion and modernity as well as courses on theory and method in religious studies

Arabia in 2003 These case studies contain major aspects and features of the rise of JSGs and together explain the contribution of state fragility to the process of the formation and expansion of these terrorist organizations International Security in a World of Fragile States stands out as a pivotal work on the interconnection between the root causes of JSGs and state fragility conditions and their amalgamated role in the formation and evolution of these organizations It contributes to IR and international security debates by developing a comprehensive but readily understandable narrative of the rise of JSGs in Islamic countries and examining them in an analytical framework in which their root causes are categorized on individual group and international levels

Islamic Fundamentalism since 1945 Beverley Milton-Edwards, 2013-09-11 Featuring a brand new examination of Islamic fundamentalism in the wake of the Arab Spring this fully revised and updated second edition of Islamic Fundamentalism since 1945 analyzes the roots and emergence of Islamic movements in the modern world and the main thinkers that inspired them Providing a much needed historical overview of a fast changing socio political landscape the main facets of Islamic fundamentalism are put in a global context with a thematic debate of issues such as the effects of colonialism on Islam secularism and the Islamic reaction Islam and violence in the 9 11 era globalization and transnational Islamist movements Islam in the wake of the Arab Awakening Islamic Fundamentalism since 1945 provides an authoritative

account of the causes and diversity of Islamic fundamentalism a modern phenomenon which has grabbed the headlines as a grave threat to the West and a potentially revolutionary trend in the Middle East It is a valuable resource for students and those interested in the history effects and consequences of these Islamic movements Nationhood, Providence, and Witness Carys Moseley, 2013-11-28 In this eloquently argued work Carys Moseley provides an original angle of criticism on the issue of nationhood and Christianity asserting that Christianity must relate to nationhood as the nation structure is part of God's plan for humanity The book addresses three major themes in the field of theology and nationhood The first is that anti nationalism and anti Zionism are often two sides of the same coin and involve taking leave of a providential reading of the Bible as well as a willingness to understand history in broadly providential terms The second is that such an approach tends to involve a reluctance to recognise subordinated Gentile nations especially those that have lost independence Moseley studies the work of four theologians Reinhold Niebuhr Rowan Williams John Milbank and Karl Barth to examine the difference between nationhood and statehood She provides a perspective on Wales as a stateless nation as an example of a Gentile parallel to Israel Thirdly Moseley links social theorists to the theologians to explore their affinities Niebuhr is paired with Mark Juergensmeyer and Rowan Williams is juxtaposed to the debate between Adrian Hastings and Anthon Smith Nationhood Recognition and Providence will interest anyone concerned with nationhood and Israel in protestant theology and offers unique insights into stateless nations from the Welsh born author's perspective
